

Free Relief For Veterans

Military, Police, Fire & 1st Responders

PTSD Help for Veterans With New Video at HoustonVetter.com

September 03, 2015

September 03, 2015 - PRESSADVANTAGE -

Free PTSD Help Available for Veterans, Military Persons, Police, Fire and 1st Responders announced.

Doc Houston Vetter, PhD (DocResults) from the Feel Better Institute has decided, because of the current situation with Veterans in the United States and all the random violence against the police, to do what he can to honor as many defenders and 1st Responders as possible by providing Free PTSD help for those who are not getting the help they feel they need; including veterans, military persons, police, fire and all 1st responders.

For the last few years the problem and failure of veterans getting the help they need and were promised by our government has been in the news. According to a recent article by the Huffington Post, more than 238,000 of the 847,000 veterans waiting for VA help have already died. Which indicates not only poor bookkeeping it also shows that even though help has been recently promised by the government, it is still lacking and our veterans are still suffering.

According to the Huffington Post, Scott Davis, a program specialist at the VA's Health Eligibility Center in

Atlanta provided HuffPost with an April 2015 report titled "Analysis of Death Services," which reviews the accuracy of the VA's veteran death records. The report was conducted by staffers in the VA Health Eligibility Center and the VA Office of Analytics.

There is a minimum of 22 veteran's suicides each and every day or one every 65 minutes according to the United States Department of Veterans Affairs. And CNN reports, "A recent analysis found a suicide rate among veterans of about 30 per 100,000 population per year, compared with the civilian rate of 14 per 100,000." And the news is full of reports of random and senseless violence, even murder against our police.

According to Doc Vetter, he may not be able to help all the veterans but he is willing to help as many veterans, military persons, police, fire and 1st responders as possible. And in honor of their service and sacrifice he is willing to do it at no charge. If he can stop one more veteran or those that serve and protect from suffering or death he will feel as if he is thanking all defenders and 1st responders.
