Clean Group Announces Most Affordable Strata Cleaning Brisbane Services

October 06, 2020

SYDNEY, NSW - October 06, 2020 -
Clean Group, a commercial cleaning agency with its headquarter in Sydney, is now offering affordable and reliable strata cleaning services to local businesses in Brisbane and surrounding suburbs. According to the Clean Group website, they have over 20 years of experience in Strata cleaning and offer free on-site quotation. The company is already working with multiple large corporations and strata management firms across Australia, catering to their day-to-day and on-off cleaning needs. A professional staff, trained team of cleaners, and competitive rates are some of the things that make Clean Group better than the competition.

?These guys are great. We are extremely satisfied with the services they deliver, so do our tenants. Great attention to details and we receive no complaints regarding any cleaning concerns. Friendly, approachable staff, and definitely reliable,? says the owner of The Strata Committee, where Clean Group provides routine cleaning services.

Clean Group has the experience and resources to meet even the most unique cleaning requirements of different types of commercial properties, including large strata buildings. Their cleaners are all insured and certified professionals with a background in commercial cleaning. They know how to clean a place with attention to detail and to deliver satisfactory results. Their friendly staff is nice to talk with and cheerfully accept the client?s suggestions and provide services accordingly. The same can be said for their sales team that can be reached via phone, email and chat, and is always very responsible and super friendly.

Clean Group?s CEO and owner Suji Siv himself has huge experience in the commercial cleaning industry and understands the cleaning needs of local businesses very well. He regularly provides instructions to his team on how to improve services while paying attention to the client?s problems as described in the given article
https://www.pressadvantage.com/story/38564-clean-group-launches-dedicated-office-cleaning-brisbane-service-for-small-to-midsize-offices. Also, he makes sure that his cleaners are working with the latest technologies

and cleaning equipment for the maximum results. New cleaners at Clean Group are hired through a meticulous process that includes police-verification, background-check and multiple rounds of interview. This ensures that the cleaners are experienced and safe to work with. Their cleaners are trained to provide services in accordance with the highest cleaning standards and to ensure 100% customer satisfaction.

?With Clean Group, you can never go wrong. Our team is made up of highly skilled and trained individuals who love what they do. They also pay attention even to the tiniest details only to ensure you will be happy with the cleaning outcomes. Aside from the vast experience and right attitude, our cleaning team is also equipped with state-of-the-art cleaning facilities. All our equipment is updated with the latest specifications in order to provide impeccable and desirable results,? says Suji Siv.

One of the best things about Clean Group is that their experienced cleaners are already familiar with the basic structure of a strata property and know exactly how such buildings are managed, so the client doesn?t always have to explain details or provide instructions for cleaning. And because they already know what to expect from a particular strata cleaning project, they can quickly come up with the best cleaning approach to employ to achieve the desired results. Their strata cleaners use a carefully-crafted cleaning approach that involves using high-tech tools and eco-friendly, non-toxic solutions for efficient cleaning of the property while taking into consideration all client?s concerns and suggestions. This almost always ensures that all the strata cleaning needs are properly addressed.

To ensure that everything is covered during the cleaning of a strata property and nothing is left behind, their cleaners follow a systematic approach, covering all the aspects and parts of a building, including common areas, hallways, car parks, balconies, and gardens/parks. Their strata cleaning services include regular dusting and cleaning of all common areas, dusting and wiping of furniture, light boards, lift switches, window sills, staircase railings, etc., cleaning/washing of glass windows, cleaning and scrubbing hard floors, surface disinfection, carpet cleaning, graffiti removal from walls and furniture, garbage removal, cleaning of common toilets/bathrooms and kitchens, garden cleaning and maintenance, and more.

For strata owners and builders in Brisbane, Clean Group is the best-choice strata cleaning agency. For a free, non-obligatory site inspection, one can call their sales team at 07-3085-4358 or visit the website.
