

Clean Eating Magazine's Search For The Best Pizza Cutter Ends With Cestari

October 09, 2020

LITTLETON, MA - October 09, 2020 - PRESSADVANTAGE -

Littleton, MA-based Cestari is delighted to share that one of their novel products has been recognized by Clean Eating Magazine as a great deal for customers who want a no-nonsense pizza cutter. In fact, the publication lists several pizza cutters that each offer unique strengths, but Cestari's product stands out for the numerous accessories it provides with every standard purchase. With home kitchens becoming more elaborate yet geared towards convenience, Cestari maintains the belief that cooking should be both accessible and fun. This is one of the purposes they designed their cutter to fill, and this may be why many consider it to be the best pizza cutter on the market.

Clean Eating Magazine states, "Every kitchen should have this pizza cutter wheel! It quickly slices through layers of pizza and other delicious treats with a premium-quality ceramic blade. Pizza won't become dull over time, and neither will this blade. Plus, it comes with an easy-open case, safety sheath, magnetic closure and more!"

At the moment, Cestari's Pizza Cutter Wheel is available on Amazon for \$15.99, and new customers will be delighted to find that their peers adore the product just as much as Clean Eating Magazine does. This is

made evident in the glowing reviews the product has received online, with users complimenting it heavily for how easy it is to use as well as how many accessories it comes with.

These accessories include a luxury gift box (which the product comes in) alongside a custom foam insert and magnetic closure. Furthermore, the company has seen fit to design a handy safety sheath that serves a dual purpose: it protects the cutter's sharp, non-stick ceramic blade as well as the user's fingers when not in use. Cestari points out here that the sheath effectively allows owners to treat the cutter as a portable tool that they can take virtually anywhere without fear of damage. The ergonomic handle it features is likely to make it a distinct favorite for any pizza lover who wants pizza with less of the mess and cleanup, so Cestari expects their customers to get in the habit of taking it around with them whenever they know a pizza is on the itinerary.

Here's Amazon reviewer Chris Boure's reasons for why he thinks this is the best pizza cutter: "One of our favorite things to do with our kids is Pizza Night. We don't order, we have a great time picking out different frozen pizzas to try. One of the biggest issues we've had is finding a pizza cutter that was easy enough and safe enough for our kids to manage. You know they want to cut the pizza. So the Cestari Pizza Cutter Wheel was the answer to our Pepperoni Pizza Prayer (Please God, don't let them cut themselves)."

He explains that, "The easy to hold handle, with no slippage, was very easy for our special needs son to use. Not worrying about cutting himself made for a really decent family experience. Since the parents make the pizza, the kids are in charge of clean-up. This pizza cutter was so easy to clean, unlike the last one that had pizza stuck to it, probably from months ago. I would highly recommend this pizza cutter."

Another aspect of the pizza cutter that all of Cestari's customers enjoy actually extends to the rest of their products as well - the company offers an extremely attractive no risk, no questions asked, lifetime product satisfaction guarantee.

The high quality of Cestari's products is the main reason they are confident enough to offer all their customers such a guarantee across their full line of products, and the Cestari Pizza Cutter Wheel is no different. Customers need not take either Cestari's or Clean Eating Magazine's word at face value - they are welcome to use the product and see for themselves without hesitation thanks to the company's return policy.

Find out why Cestari believes this product is the best pizza cutter on the market by ordering it through Amazon or their official website. Customers may contact Susan MacDowell of Cestari for further details as well.
