

Ethos Spa Skin & Laser Center Offers Top Botox Services In NJ

October 14, 2020

October 14, 2020 - PRESSADVANTAGE -

Summit, New Jersey-based Ethos Spa, Skin & Laser Center is reaching out to the community to reassure them of the availability of their top-rated Botox services. In addition to this, the clinic is taking steps to raise awareness of Botox treatments and what they can accomplish.

"We wanted to clear some of our clients' most common questions and inquiries regarding Botox treatments, hoping to guide them through its benefits and why it is such a popular treatment," states Dr. Hardik Soni of Ethos Spa, Skin and Laser Center. The center specializes in state-of-the-art cosmetic treatments, offering the highest quality of non-invasive procedures to New Jersey residents.

Dr. Soni explains, "To know the benefits of Botox, it is crucial that you separate the common misconceptions that typically surround it and understand what it really is. Botox is a natural protein that is often used in skin rejuvenation treatment as medication. It is derived from a natural bacterium that is found in nature, in places such as forests, lakes and within many mammals and fish. Botox allows your facial muscles and muscles in

other parts of the body to relax. Muscles that have been tense and taut find themselves de-stressed for the first time in years."

Once these muscles relax, unwanted fine lines, wrinkles, crow's feet and more vanish immediately, leaving behind soft and smooth skin. The benefits of Botox can go even further than this, depending on the application. Dr. Soni states that it can also help in Acne Management, Chin and Jawline Softening, Neck Smoothing, Twitching Eye Treatment, Lip Lifts and Migraines, among several other benefits. These advantages ? which come at little risk ? are the reason for Botox's steady rise in popularity over the years.

The Ethos Spa, Skin and Laser Center offers clients the option of complementing their Botox treatments with dermal fillers, a treatment similar to Botox that allows them to work well together. Dr. Soni says, "As your body ages, you naturally lose subcutaneous fat around your face. This causes your face to lessen in fullness, which is one of the causes of crow's feet and smile lines, as it brings your facial muscles nearer to the surface of your face. Dermal fillers are used to give your face renewed plumpness, by filling in the spots where your youthful subcutaneous fat once existed."

While these are some of their most popular services, the Ethos Spa, Skin and Laser Center offers several other cosmetic procedures. This makes them a one-stop clinic for New Jersey residents looking for non-invasive treatments offered by highly-experienced, board-certified professionals. Some of their other cosmetic procedures include Laser Hair Removal, Lip Injections, Brazilian Butt Lifts, Tattoo Removals and Breast Augmentations, among several others. They can schedule consultations for all of these services where they offer guidance to prospective clients on whether or not they should move forward with the treatments.

The Ethos Spa, Skin and Laser Center is among the best-rated therapeutic spas in New Jersey, enjoying an outstanding reputation for the quality of their services, the attentiveness of their staff and their welcoming facilities. Through their Google Maps listing, they have received over 400 positive customer reviews, maintaining a near-perfect review rating of 4.8 out of 5 Stars.

Through this space, Tiffany Sullivan says, "Ethos Spa is the absolute best place to get anything and everything done. Dr. Soni is beyond professional and caring. At no time does any procedure seem rushed. He goes through the motions of explaining every pro, con and risk and ultimately makes you feel comfortable with the decision you take on your skin. I would recommend them a million times to everyone."

Another review by Elena Miglino says, "I have been going to see Dr. Soni for two years now and, needless to say, I'm obsessed. They are so professional, so knowledgeable and amazing at their job. I really like to keep my Botox and filler minimal for natural results, and they are always sure to make me comfortable! I love them! Definitely 5 Stars."

The clinic's website offers more details on Ethos Spa, Skin and Laser Center as well as their services. Interested parties may reach out to Dr. Hardik Soni to follow up on any inquiries as well. They may also connect with the local clinic through their official Facebook page.
