

Diaper Station With Mat Has Zippered Pocket Announces 3 Bees & Me

September 09, 2015

September 09, 2015 - PRESSADVANTAGE -

3 Bees & Me Company announced earlier today that their Diaper Station With Mat has a zippered pocket. The pocket can be used to keep important items such as keys, money and the likes. Since the diaper clutch was made especially for parents who are always on the go, it is important to have a pocket where people can safely keep belongings.

“With every product that we introduce, our goal is to meet the needs of every buyer. This is one of the reasons why we included a zippered pocket in front of our trendy and Chevron-patterned diaper clutch,” says Holly James, 3 Bees and Me spokesperson. “Since this is mainly for parents who are always on the go with their babies, we included the pocket where they can put in important items such as keys, money and cards. For short trips with your baby, this clutch is all you will need since it can house all the baby essentials.”

There is no denying that a good diaper clutch is preferred by most parents as opposed to big diaper bags that are bulky and inconvenient to bring. For this particular changing station, it has several compartments that can easily house various baby essentials such as diapers and wipes. Knowing that parents often bring other important items such as keys and money, the company also included a zippered front pocket. Also, it has a

strap that can be attached to any type of baby stroller.

3 Bees and Me's changing station is made of vinyl material that is very easy to clean and sanitize. The changing pad itself is large enough for a growing baby. The pad has a unique wing design that is not seen in other brands. The design will prevent the baby's hands from touching dirty surfaces during diaper change.

Again, the baby products company is pleased to share to everyone that they have included a zippered front pocket in their Diaper Changing Pad Station. This feature has been lauded by users because it is important for safe keeping of valuable items. The changing station is still available at <http://www.amazon.com/gp/product/B00OOAM70S/>.
