North Edmonton Kia, one of the leading car dealerships in Edmonton, Alberta, Canada, has revealed with pride that one of their recent customers has given them a five-star rating on Google. The customer, who was from a TV program, had been attracted to the dealership because of its high customer ratings and was glad to point out that he was not disappointed. Although a relatively new dealership in the Edmonton area, they are growing quickly and have the advantage of not being a corporate owned dealership. Instead, they are solely owned by Robert Aaltonen, who has more than 20 years of experience. In another customer review, which was mentioned in a recent press release found at https://www.pressadvantage.com/story/38483-new-best-car-dealership-in-edmonton-review-lauds-the-company-s-customer-service-even-when-performing-, they also received a five-star rating.

The corporate customer who gave the five-star rating said, ?I visited North Edmonton Kia to check out their 2020 vehicles and asked for Victor based on a glowing review by a satisfied customer who was very happy with his service. I was certainly not disappointed and would not hesitate to recommend Victor if you are looking to buy a Kia from this location. He was pleasant and personable and answered all my questions. Victor did not hesitate to go the extra mile to ensure that the sale went smoothly. He exceeded my

expectations and it was a refreshing experience. I look forward to excellent service with my vehicle at North Edmonton Kia. Thank you, Victor.?

Robert Aaltonen says, ?We?re certainly glad and proud to have received such a glowing review from one of our corporate customers. The fact that our dealership is not corporate-owned is certainly a plus factor. For instance, we are focused on bringing the family feeling back to your dealership visit and the energy and commitment to the customer having the best possible experience is evident in everything we do! And if you have a question you can actually ask me because most of the time, I?ll be around to answer your questions.?
