

## **Diaper Clutch Changing Kit Has Waterproof Mat Announces 3 Bees & Me**

*September 11, 2015*

September 11, 2015 - PRESSADVANTAGE -

Earlier today, 3 Bees and Me, the online-based retailer of quality baby products, announced that their diaper clutch changing kit has a waterproof mat. The company chose a vinyl material to ensure that parents will not have a hard time cleaning and sanitizing it after diaper change. They have emphasized a quality and hassle-free product is what they really aim for.

"As a company, we have always believed that the products that you use should always be hassle-free. This is important for you to save time especially for parents who have so many responsibilities all throughout the day," says Holly James, 3 Bees and Me spokesperson. "With this in mind, we chose a good quality vinyl material for our changing mat that is very easy to clean and maintain. Our mat can be sanitized easily after every use."

Aside from the vinyl material, this changing station is also well-praised by users for a lot of other things. In a review by BMZ on Amazon, she stated, "This changing pad is the cutest! I love the design and it's super durable. It's made nicely and super convenient. I plan on giving this to my sister in law for a baby shower gift and I know she'll love it! It will make it so easy for her to change her new baby anywhere! It even has little

compartments to add other items in! I love it! I can't wait to give it to her!?

3 Bees and Me's changing station boasts a classic Chevron design that is gender neutral. It has compartments that can house diapers, wipes and even small toys. It is small, compact and perfect for short trips. The diaper pad, which is also made of waterproof vinyl, is large. Moreover, it has a unique wing design to keep the baby off from dirty surfaces. It also has a convenient wrist strap that can be attached to strollers.

The waterproof changing mat is one of the unique features of the changing station, at least, according to users. It is therefore not surprising anymore that it has been a popular choice at [www.amazon.com/gp/product/B00OOAM70S/](http://www.amazon.com/gp/product/B00OOAM70S/) especially among mothers who do not want to waste their so much time during diaper change.
