

## **Diaper Changing Station Made Of Easy To Clean Vinyl Material Announces 3 Bees and Me**

*September 15, 2015*

September 15, 2015 - PRESSADVANTAGE -

3 Bees and Me, a baby products online retailer, announced earlier that their diaper changing station is made of an easy to clean vinyl material. This is good news especially for mothers who do not want to waste much of their precious time cleaning up after every diaper change. Aside from being easy to clean, it is also waterproof.

“We are very proud to announce that our very popular and unique changing pad is made of a vinyl material that is very easy to clean and maintain. It is waterproof and can be sanitized easily whenever needed,” says Holly James, 3 Bees and Me representative. “We believe that every parent deserves a hassle-free product that will help make their parenting experience more fun and easy. Because of this, we made sure that the material that we will use in our diaper clutch is not only durable, but easy to maintain and keep as well.”

The Chevron-patterned vinyl material is one of the reasons why it is a hit among parents. In a review by Amy Bartley, she said, “Easy to clean, waterproof. Folds up into a very nice clutch. Love the chevron print; it's so in right now. Inside, there is a clip to keep the ingenious wings in place. A zippered pocket for ointments. A mesh pocket for diapers. An elastic holder for wipes. Another outside zipper pocket is perfect for keys, phone,

etc. This is perfect. This makes a great gift for any new mom.?

Aside from the classic design, the diaper clutch is also known for being compact and easy to carry. It has a convenient wrist strap that can also be attached to a stroller during walks. It has several compartments that can fit baby essentials such as diapers and wipes. As for the pad itself, it has a unique wing design while still having the same Chevron pattern of the clutch. The wing design ensures that the baby will not touch dirty surfaces during diaper change.

Aside from quality, a product should also bring comfort to users through ease of use. This is what 3 Bees and Me wanted to achieve with their easy to clean diaper mat. It is still available online at Amazon.com.
