LinkedIn marketing software company Kennected is reaching out to the wider community to share a 5-Star review they received from Kelle Diabate, a YouTube consultant. The Software as a Service (SaaS) company is dedicated to simplifying the lives of business owners and entrepreneurs through lead generation, automation and education.

Devin Johnson, one of the founders of Kennected, says, ?When we first started Kennected, we never thought we?d be having as much success as we are now. Today, we are proud to say that Kennected is making waves in the marketing automation field and stacking up a series of 5-Star reviews. You don?t have to take our word for it, you can just watch the review from Kelle Diabate and learn what makes us special. Kennected is not like the other marketing automation tools that you have today, and our goal is to help businesses get the results they deserve with ease.?

In their testimonial, Kelly Diabate says, ?Kennected is just an amazing software that is going to revolutionize how you do business and how you get in touch with business owners all over LinkedIn. These guys have been absolutely phenomenal from the moment I paid, basically until right now. Setting me up, helping me out

each time I have a problem, they make sure I can set my campaign straight and have the best results possible.?

Diabate ends by saying, ?If you have any doubt about Kennected, take it from me ? it is just so good, and the team behind it is just so amazing. You should go straight in and see what happens. It is pretty much impossible that it doesn?t work for you. Just give it a shot.?

Kennected was founded in 2018 by Devin Johnson, Cody Harvey, Elliot Drake, Stephen Twomey, and Brandon Poplstein, who all worked together in a digital marketing agency. Finding that scaling up a high-quality solution that worked for all components of digital marketing was a frustrating task, they set out to develop an alternative that could provide people and businesses the solutions they needed in a scalable business model. That resulted in the creation of Kennected, which has helped over 10,000 businesses achieve their goals since its inception.

Kennected simplifies the lead generation process by automating a businesses? outreach on LinkedIn, personalizing follow-ups, building real relationships at scale, and helping create new revenue streams. Johnson says, ?At Kennected, we specialize in automating the prospecting and outreach process, that is so time-consuming, via LinkedIn Automation. We help companies of all sizes generate low-cost leads that convert into profitable customers. LinkedIn is still very untapped as far as how to grow your business. We hope to empower business professionals to achieve more impact, influence and freedom. The way to do that, we believe, is by offering them solutions they can understand and apply to their own ventures.?

Kennected has earned high praise from many in their community. The company?s testimonials page shows a large number of Kennected reviews that all praise the excellent LinkedIn automation tool. In his review, AJ Adams (a podcaster and speaker) praises Kennected, saying, ?Killing It! Had to turn it off (Kennected sequences) because I had too many responses. After making a couple of adjustments to the messaging strategy, my connection request went up over 30%. I booked 30 or so podcasts, 10 of which are as a guest. Five minutes ago, I finished replying to 50+ unread messages and have another 2-3 interviews I'm booking. Also booked a speaking gig out of it!?

Meanwhile, in another review, Glenn Cunningham (a realtor at Keller Williams) says, ?At the time I started using Kennected, I had less than 60 connections on LinkedIn. Since then, that has grown to almost 2,000 connections. I have one house under contract, and I have buyers who I am the buyer's agent on. If you are in Real Estate or any business where you need to generate leads, you should check out Kennected. It has certainly changed my business. It has added an entire stream of revenue to my business. Thanks, guys!? Check out another kennected review here.
