It also makes it so businesses can stop worrying about trying to find more clients and save time that would normally be spent performing low-level tasks that generate little to no real profit. Kennected was founded in 2018. By combining the marketing experience and expertise of Devin Johnson, Cody Harvey, Elliot Drake, Stephen Twomey and Brandon Poplstein, Kennected?s purpose has always been to provide a highly effective solution that is both simpler and more effective than traditional marketing services. Kennected has been successful and brought the power of lead generation and marketing to over 10,000 businesses and entrepreneurs around the world in less than two years.

The five original founders of Kennected worked together at a digital marketing agency where, after years of experience, they found that one of the most frustrating parts of running an agency was scaling up a high-quality solution that worked. Search Engine Organization (SEO), Facebook ads and content marketing are all affected by the human element in some way, which often makes it nearly impossible to produce world-class results. The founders decided that they wanted to bring world-class marketing to people looking to grow their businesses. As a result, Kennected was born.

Joseph Heraldo is not the only Kennected user to have seen great results. A number of other businesses and entrepreneurs have left great reviews of Kennected. Ben Edson, the owner of an SEO agency, says, ?Hey Elliot, I just wanted to personally reach out and say thank you for letting us on the platform! Within the first month, we actually closed two website deals totaling over $5,000 and a monthly subscription to our SEO program of over $1,000 per month. We have had so many leads on our team's LinkedIn that we hide from the platform due to not being able to handle all the sales calls! My phone and account went from being silent to blowing up off the walls. I love the platform! 10/10 recommending to friends!?
