

Options Medical Weight Loss in Chicago Introduces New Website

October 23, 2020

October 23, 2020 - PRESSADVANTAGE -

Options Medical Weight Loss, a weight loss facility located in Orland Park, IL, has announced that they have recently introduced their new website. This clinic is located in the Chicago South Loop and it is only a short distance from: The Loop, The West Loop, River North, Old Town, and Lincoln Park. They can prescribe various appetite suppressants such as phentermine for weight loss, phendimetrazine, diethylpropion, topiramate and many more medications for weight loss. Their weight loss doctor may also prescribe HCG injections for weight loss, the HCG diet, B12 injections, weekly diet counseling, lipotropic fat burning injections, and Options Diet System? plans, meals, and supplements.

A spokesperson for Options Medical Weight Loss says, "We have recently introduced our new website. This means that our site visitors will notice that it is easier to go through our site and find what they are looking for. It also means that they will be able to view our site correctly on their mobile devices."

She adds, "We believe that the true way to not only reach your weight loss goals, but to keep weight off, is by making the proper lifestyle changes with nutrition. We also understand that an individual's weight loss journey is not always an easy process. That is why we offer the Options Diet System?, prescription programs, non-prescription programs, and healthy options for nutrition."

They offer an Options Diet System? prescription program that is their trademarked ketogenic approach. This is a program that can be used by those who want to lose from 10 to 110 pounds within six weeks to 34 weeks. A weight loss doctor will be prescribing one of the many weight loss drugs available to help the patients control their appetite and hunger. They may also add lipotropic fat burning injections to hasten up fat burning in the body. A professional weight loss counselor will also be available each week to educate, coach, and motivate the individual in attaining the weight loss target.

There is also the Options Diet System? non-prescription program for people who want to avoid using weight

loss drugs. It also uses their trademarked ketogenic diet program and this particular program is done in intervals of six and 10 weeks. In the same way as the prescription program, a weight loss counselor will be guiding the patients in attaining their weight loss goals.

And for those who prefer to lose weight as fast as possible, they can provide the Fast Options Program. With this program, a person can lose up to 65 pounds in a period of 10 to 12 weeks. It combines various approaches, such as lipotropic fat burning injections, prescription medications, the hormone HCG, Dr. Simeon's HCG protocol, and their Options Diet System. A weight loss counselor will also be available to offer weekly guidance.

Phentermine is one of the potential weight loss medications that can be prescribed. It functions by reducing hunger while boosting metabolism. That is made possible by phentermine stimulating the hypothalamus gland and acting on a number neurotransmitters to decrease appetite.

Phendimetrazine is another weight loss medication that they may prescribe. This particular drug has been observed to be more potent in decreasing appetite and increasing metabolism. It functions by stimulating the central nervous system to increase heart rate and blood pressure, while decreasing appetite.

Another prescription weight loss drug that may also prescribe is diethylpropion. It has a shorter half-life than phentermine, which means that it may be used later in the day and thus may have lesser effect on the person's sleep.

Individuals who are interested in learning more about the medical weight loss programs available at Options Medical Weight Loss in Chicago may want to check out their website, or contact them through the telephone or via email. They are open on Mondays, Wednesdays, and Thursdays, from 8:00 am to 1:00 pm and then from 3:00 pm to 7:00 pm; and on Fridays and Saturdays, from 8:00 am to 2:00 pm.
