Buzz?s Bee Removal of Gainesville Notice of Merger

October 21, 2020

October 21, 2020 -
Buzz?s Bee Removal of Gainesville is a pest control company that offers professional-grade stinging pest control services to all of Hall County. The company has been offering affordable pest solutions to local residents for over a decade. With a team of fifteen professional exterminators, they are one of the top-rated pest control companies in the area.

In a recent report, the company plans on merging with another smaller unnamed pest control company. Their board of directors voted in favor of the merger on Monday. Buzz?s Bee Removal plans to use the merger to make it easier for the company to battle the ever-growing number of pest infestations in Georgia. The company will receive brand new pest control equipment, two new utility vans, and a new employee. The new equipment and utility vans will help their team of exterminators more reliably remove the pests from the target property. The new employee will help the company help more people with various stinging pest infestations.

A representative of the company said in a recent interview, ?Pest infestations are becoming more and more of a problem because everyday treatments like DIY methods and over the counter products aren?t as effective as they used to be. Because of this, the pests are able to multiply and spread out of control. It is more important now, than ever before, to call a professional to deal with pests infestations the right way.?

The company has grown very fast over the years and is planning on growing even more into the future. Local homeowners or business owners can contact Buzz?s Bee Removal of Gainesville when they are faced with a potential infestation. Their team of specialists can be reached by phone or by visiting their website at https://www.buzzsbeeremoval.com/service-areas/gainesville-georgia/.
