Flashbox Photo Booth Rentals, a photo booth rental company, has recently opened its doors to the public in Honolulu, HI. The company has already existed for some time in Los Angeles, CA, where the company has been successful. They are now expanding to Honolulu and hope to be a part of many celebrations there.

"Our goal has always been to be the life and soul of any party," says Nicky Brown from Flashbox Photo Booth. "Los Angeles seemed to be the logical place to first start our services, but it is not the only place in the world where people like to have a good time. Honolulu, therefore, is our next stop and we expect that we will be equally successful there."

A trend has been observed where photo booths are increasingly becoming popular at parties. People like to celebrate special occasions, such as birthdays and weddings, with a permanent memento, keeping visual reminders of special moments for all times. This is precisely what photo booths can accomplish, in a very fun way.

Flashbox Photo Booth Rentals offers a range of different packages and prices to customers. Those who are interested may want to visit the website and find out what prices are available. All prices include instant prints of any pictures taken in the photo booth. The service provider also brings many different props, which can be

customized to the needs of the client.

Those customers who have used Flashbox to date have been incredibly happy with the service that they have received. "Having Flashbox do our photo booth rental was one of the best decisions we made," says Wendy. "Tommy offered me a great deal and we were even able to customize our banner at no additional cost. He was able to match the banner to our wedding invitations and they looked amazing. The props were fun and Tommy was a great attendant! Before leaving, he gave us our CD full of images so we could remember all of the fun memories from that night."

Flashbox Photo Booth Rentals has already been mentioned on a number of wedding and event blogs, including Wedding Wire.
