They offer a simple step-by-step streamlined dumpster rental process. The first step is for the client to choose a particular size that is appropriate to help in the debris produced by the project in a timely manner. Those who don?t know the proper size for the dumpster can get in touch with CTX Dumpsters for help.

The second step is to prepare for the delivery of the dumpster. The client will ensure that the drop-off area for the dumpster is free from any obstacles. There should be no vehicle or materials that obstruct the delivery of the dumpster to the designated drop off area.
