Cash Home Buyers Atlanta wants to point out that there are three options for people who say, ?I want to sell my house for cash.? The first option is to hire a real estate agent to sell the house. The second option is to sell the property on their own. And the third option is to sell the house directly to Cash Home Buyers Atlanta. They want to encourage home sellers to get all the information that they require about selling their home in Atlanta, and then carefully weigh the advantages and disadvantages and make a wise decision.

If the home seller hires a real estate agent, the listing process can be advantageous for the seller because of the wide exposure that is possible through the MLS and the real estate agent?s network. This means that it is possible to get a high price for the home. However, the issue is that the house would need to be in a presentable condition, or else home buyers will not likely be attracted to the offer. Thus, the home seller will need to keep the home clean and always be ready for presentation to a potential buyer. It may also be necessary to make some repairs before the property can be placed on the market. And the home seller will have to be ready to show the property at any time to a possible buyer. Some agents may arrive unannounced, and the home seller may need to clean up and put things in order hurriedly. And there is also the possibility of hiring the wrong agent and being forced to lower the asking price.

The second alternative for home sellers is to sell the property on their own. This will allow them to avoid paying a commission to a real estate agent, and with some luck, they could complete the sale fast enough. However, this may entail a lot of work for the home seller, such as fielding calls, responding to inquiries, marketing the property, showing the property to potential buyers, making inspections and handling the repairs, handling the negotiations, and taking care of all the legalities. And it is possible to make an error regarding legal matters, which may end up in costly litigation.

The third alternative is to sell the home directly to Cash Home Buyers Atlanta. The advantage is that the home seller would really be able to sell the house fast because the transaction would be in cash. There would

be no need to repair the house, and the seller can save on real estate commissions. Oftentimes, the convenience, speed, and assured sale of the home will be much more beneficial than having the home listed.

There is just one possible disadvantage of selling the home directly to Cash Home Buyers Atlanta, and that is the home seller may not be able to get the full retail price. This is understandable because there would be no need to make any repairs. The thousands of dollars that the seller can save on commissions, repair costs, holding costs, marketing costs, and closing costs will more than make up for the difference in selling price.

Fitz Thompson from Cash Home Buyers Atlanta says, ?At Cash Homebuyers Atlanta, we think it is important that home sellers get all of the information they need about selling their houses in Atlanta. We encourage you to look at all of your options, weighing the pros and cons of each.?

He continues, ?We buy houses across the U.S. and focus on Atlanta and surrounding areas, so our home buying team can help you sell your house fast no matter where in or around Atlanta the house is, no matter its condition, whether you?re upside down on your home financing or not.?
