

Stockton Tree Service Experts Expands Tree Removal and Landscape Service Area

October 29, 2020

October 29, 2020 -

Stockton Tree Service Experts, a local tree service and landscape company in Stockton, California has announced their expansion of services to customers in the areas of Folsom, Sacramento, Elk Grove, Galt, Lodi, and Sonora, CA. The company has also added Certified Arborists to their staff to provide specialized arborist services.

To learn more about the expanded service area and added services visit the company website here: <http://www.treeservicecalifornia.com/>

Stockton Tree Service Experts was founded in 1995 and is a family-owned tree service and landscape company. The company has over 25-years of experience caring for the natural landscape of communities in the San Joaquin County area.

Company representative, George Salinas stated, "Our goal is to provide exceptional tree service to all residential and commercial clients looking to maintain or improve the natural surroundings of their homes and businesses."

The company has an excellent reputation, which is reflected by review testimonials from some of their past customers.

Bobby W. of Lodi, CA stated in her review, "George Salinas Tree Service Stockton's crew made my family happy. The service was prompt and the job was completed faster than I imagined." She awarded the company a five-star review.

Barry C. of Stockton, CA in his review stated, "Excellent and professional people. They were a pleasure to have around. George was always keeping me updated as to their progress." He also awards the company

with a five-star review.

With the recent addition of Certified Arborists to the tree service team, the company is now in a position to provide even more services that are specialized for their customers such as disease analysis for trees, hazard assessments, and offer solutions. Arborists can help property owners decide if a tree can be nurtured back to optimal health if it is unhealthy. Arborists can also advise property owners if a tree should be removed and then oversee the tree removal process to ensure overall safety.

Certified arborists are well equipped to handle most any issue a tree may be having because of the extensive training they undergo. They have dedicated professionals with many years of experience. The arborists at Stockton Tree Service Experts maintain certification with ISA (International Society of Arboriculture) and are experts in their field.

Company representative, George Salinas stated, "We strive to save every tree we can, but sometimes tree removal becomes necessary. To ensure a safe removal process we guarantee that all of our projects are managed by a Certified Arborist for the protection of people and property."

Apart from helping Stockton residents with their pest-infested and diseased trees, Stockton Tree Service Experts offer tree removal services, emergency tree care service, stump removal, tree pruning, tree trimming, and monthly maintenance service programs. Property owners would also be wise to consult with the company ahead of major activities such as construction, which could destabilize trees in the construction area. If a homeowner thinks that trees could have turned into hazards, Stockton Tree Service Experts' arborists can respond and conduct a hazard or risk assessment. Professional recommendations could then be provided to homeowners for them to make informed decisions.
