

Keeva Organics Launches New Skin Lightening Moisturizing Anti-Aging Cream

September 15, 2015

September 15, 2015 - PRESSADVANTAGE -

Move aside retinol; hyaluronic acid is the star in this vegan-approved anti-aging cream.

TEMPE, Ariz. ? ? Keeva Organics recently announced the launch of a new anti-aging cream proven to treat and prevent common aging symptoms. The trending name in the list of ingredients for this new anti-aging product is "hyaluronic acid." With retinol being the traditional ingredient choice for anti-aging moisturizers, hyaluronic acid is a modern add-in for the latest of anti-aging products.

Although consumers may not have heard of hyaluronic acid, it is widely known in the cosmetic field to increase hydration in the skin and create a plump, youthful appearance. Hyaluronic Acid was nicknamed the "key to the fountain of youth" because of its ability to slow and even reverse the aging process of the skin. The natural ingredient is vegan-approved, as are all ingredients contained in Keeva Organics' newest anti-aging cream. The moisturizer boasts anti-wrinkle benefits from retinol, Shea butter, and coenzyme Q10 and is the best skin lightening cream on the market. Other ingredients include jojoba oil, vitamin E, vitamin C and natural antioxidants. Some of the anti-aging and anti-wrinkle benefits by provided by the cream:

Reduce dark circles and crow's feet around the eyes; ingredients are gentle enough for sensitive skin and beneficial in providing protection for the eye-area.

Remove age spots and lighten skin; the moisturizer provides skin bleaching and whitening effects to eliminate age spots and has been proven to be one of the best skin lightening creams on the market today.

Tighten skin around the face and neck; the product has shown success in firming skin when used daily and applied to face and neck.

Protect skin against the elements; the formula is designed to prevent against sun damage and aging effects from external factors.

The new anti-aging cream from Keeva Organics is not tested on animals, contains no sulfates or alcohol, and is made of safe and natural vegan-approved ingredients. The moisturizer is safe for all skin types and is non-comedogenic. Keeva Organics offers a lifetime money back warranty on all of its products, and consumers are encouraged to contact the company at any time.

With hyaluronic acid as the star ingredient in an all-star list, Keeva Organics has launched a new product designed to provide the best anti-aging benefits available. In doing so, the new moisturizer transforms a simple nightly task ? a task like applying a nightly face cream ? into an all-in-one facial treatment that prevents wrinkles, lightens age spots, and firms skin. With Keeva Organics? new anti-aging cream, people can slow the aging process as they sleep. Find out more at keevaorganics.com.
