

Subaru White Plains Offers Customers a Fast and Easy Way to Receive Subaru Service

November 05, 2020

November 05, 2020 - PRESSADVANTAGE -

Subaru White Plains, a car dealership in White Plains, NY, has announced that their customers can easily obtain high quality Subaru service because they have simplified the process of getting maintenance service from their Subaru service center. Every time their customers go to the service center of Subaru White Plains, they will receive a complimentary service inspection and report card that specifies those parts of the Subaru that need immediate attention or in the future.

Mike Poznanski, sales manager at Subaru White Plains, says, "We provide a comprehensive, no-surprises approach to maintaining your Subaru. And we do it fast so you won't have to wait long to drive your Subaru again. Our Subaru Express Service offers the appropriate combination of speed and quality to ensure that customers get great value and convenience. Our precision service system is designed to make the maintenance process proceed as fast as possible, providing a seamless experience that allows you and your vehicle to be on the road again as rapidly as possible."

Mike Poznanski also wants to emphasize that they always put themselves in the shoes of their customers. They know that customers will want to continue their Subaru driving experience as soon as possible. That is why the service provided by their certified technicians will be done as fast as possible, while ensuring quality. Their service system streamlines the maintenance procedure, that gets the Subaru back on the road in the least time possible.

The Subaru oil change is one of the primary services that they provide at the service center of Subaru White Plains. The oil service begins at \$73.95 and allows customers to have peace of mind, knowing that their Subaru will be functioning at peak efficiency with the Genuine Subaru Premium Oil change service performed by certified Subaru technicians. The particular brand of engine oil suggested by Subaru is the Genuine Subaru Premium Engine Oil, which has been engineered for the specific needs of the Subaru engine. This engine oil has been designed to provide optimum performance, engine protection, and fuel economy. Subaru White Plains suggests that customers only get the best premium engine oil that is supplied by a Subaru dealer.

Mike Poznanski also recommends that Subaru customers carefully keep track of the oil changes performed for their car because delaying oil change might cause damage to the Subaru engine. He advises customers to contact the dealership's service center to determine exactly when their Subaru needs an oil change.

The simplified service offered by Subaru White Plains allows customers to have their Subaru serviced easily, even without having to visit the service center. With the auto dealer's complimentary pick up and delivery service, they will be the ones to pick up the car from the home of the customer and they will also provide the customer with a loaner. Then they will provide maintenance service for the Subaru, ensuring that a multi-point inspection will be conducted. Lastly, they will deliver the newly serviced and washed Subaru to the customer's home, all ready to go.

Subaru White Plains also has a parts service center, where their certified technicians will provide fast, high quality, and convenient service, using genuine OEM parts for the Subaru. Customers can have the brakes of their Subaru inspected, or their battery replaced or oil changed. This parts service center is stocked with OEM accessories and performance parts for the Subaru to ensure that the customers are able to customize their car based on their preferences.

Subaru car owners who would like to get more information on how to get their Subaru serviced may also want to check out the website of the Subaru White Plains, or contact them via the telephone or through email. Their service center is open from 7:30 am to 5:00 pm from Monday to Friday, and from 8:00 am to 2:00 pm on Saturdays.

Subaru White Plains customers may also want to take a look at the dealership's Subaru lease pull ahead program. With this particular program, lease customers need not give up on their pleasant Subaru driving experience when their lease expires. They may be able to end their Subaru lease earlier than the end of contract with the car dealer waiving the last three remaining payments of the lease contract. Customers will just have to turn in their Subaru early and take delivery of a new 2020 Subaru before the lease contract expires.
