

Los Gatos Interior Painting Contractor Introduces Their Safety Promoting Remote-Quote

November 24, 2020

November 24, 2020 - PRESSADVANTAGE -

Reputable Los Gatos, CA-based contractor, The Painting Pros, wants those in the San Jose area to know they are still offering their quality inside painting services. Even though the way they now approach painting the interiors of homes and businesses has changed due to the threat of the spread of Covid-19. This includes the addition of their new 'remote quote' service that is part of their plan to help minimize the direct interactions between them and their customers from the start to finish of any inside painting project they take on.

Company founder, Cleve Dayton, says, 'We have heard many rumors about people saying that painting contractors such as us have stopped painting the interiors of homes and businesses because of the ongoing pandemic. Rest assured that's hardly the case. Although this service is not being done on a business as usual basis, we have completed several indoor painting jobs since the pandemic first started and have many more in the works. These are still the same timely and high-quality interior painting services that we have been offering to our valued customers since 1978 but we have to approach them differently now. We are currently operating under all CDC guidelines for businesses related to the pandemic to keep our customers safe and we are even giving quotes to our customers and discussing their painting projects remotely.'

Dayton went on to further describe their new remote-quote service. He said that instead of quotes being given in a face to face meeting with a customer, they will now take place virtually using remote video services such as Zoom or Facebook Messenger. During the remote meeting, they will go over the prices on the estimate they have prepared for the customer and discuss further any aspects of the interior painting job that the customer has questions or concerns about. He added that their customers do not have to worry about getting accurate quotes because they still will be going to their home or business to do a thorough inspection. That is always necessary so they can get the proper perspective on what a customer's interior painting project will entail. It's just that any conversations that take place at this time will be brief and take place from a safe distance. The company has even embedded a video on the interior painting page of their website that describes in more detail their remote quote service and other Covid-19 prevention steps the company is now taking. Dayton also stated that will still be bringing all of their interior painting traits with them that have made them one of the highest-rated painting companies in the Silicon Valley. This includes their 40-years of interior painting experience, superior craftsmanship and customer service, award-winning reputation, and environmentally conscious painting practices.

Dayton added, "Interior painting is still the best and most cost-effective way to give the inside of your home or business a fresh new look and feel." Those who have had interior painting work performed by the company under their new safety protocols continue to rave about this service. Joey Joann Kim wrote in her recent 5-star review, "Cleve leads a team of experienced pros, with full quality service. An in-house paint consultant helped us select the perfect shade and appropriate sheen for our rooms. Then it was up to their efficient painters to prep and finish the job for a long-lasting durable finish. Don't hesitate to contact them for a virtual estimate! Give your interior spaces a fresh new look as we did. You'll be thrilled with The Painting Pros."

Interior painting is not the only service that this painting contractor has made a name for themselves doing in the San Jose area. They also have a reputation for doing quality exterior painting work, commercial painting, deck refinishing, and drywall repair services. Those who would like more information on this popular Silicon Valley painting contractor can call them, send them an email, or click on the "Get a Free Quote" link on their website's homepage.
