

Aaron Kosins MD To Sit On Scientific Committee At Preservation Rhinoplasty Symposium

November 10, 2020

November 10, 2020 - PRESSADVANTAGE -

Dr. Aaron Kosins, a surgeon based in Newport Beach, CA, will be attending the 2nd Annual Preservation Rhinoplasty USA symposium as a member of the scientific committee. He will be acting as the moderator and chair of the meeting which, due to the COVID-19 pandemic, will be held in the form of a virtual meeting that will be free to all surgeons.

The primary focus of the symposium will be on learning preservation rhinoplasty, including all the philosophies and techniques surrounding the technique, with the goal being to help surgeons swiftly incorporate it into their practice. The subjects covered include new thinking in nasal aesthetics, analysis and patient selection, piezoelectric surgery and preservation techniques (including preservation of the soft tissue envelope, alar cartilages and dorsum). The meeting will start at 9 AM PST and end at 12:30 PM.

Dr. Kosins takes pride in being on the cutting edge of plastic surgery techniques and principles, and he is constantly looking to learn and develop as a surgeon. He has taken a special interest in surgical rejuvenation, skin health and nutrition, with his primary goal being to offer holistic treatment to his patients. He understands that the needs of his patients are unique, and not everyone needs or wants a surgical solution. As a result,

his treatment plans are tuned to meet the unique needs of each patient. Dr. Kosins worked in the business world for years, and this may explain why he insists that customer service is paramount in every situation. Patients come first, and providing excellent care is the standard of care. Learn more here: Aaron Kosins MD.

One can find journal articles in the Journal of Plastic and Reconstructive Surgery, the Aesthetic Surgery Journal, Annals of Plastic Surgery and the Canadian Journal of Plastic Surgery written by Dr. Kosins. He has worked to develop technology in the basic sciences and has published his findings with world renowned innovators in nerve regeneration, stem cell technology, microsurgery, facial aging and rhinoplasty. From his Newport Beach office, Dr. Kosins offers a number of procedures. He is committed to helping his patients in whatever way he can and is known as one of the top surgeons in the area.

"I strive to make every part of your surgical experience excellent and as smooth as possible," says Dr. Kosins. "Therefore, I have chosen to work at Hoag Hospital, Newport Beach Surgery Center and the University of California, Irvine Hospital where I am an Assistant Clinical Professor in the Division of Plastic and Reconstructive Surgery. All three of these institutions are phenomenal. Most outpatient surgeries are performed at Newport Beach Surgery Center. I have chosen this accredited center because its safety record and excellent support staff are unmatched in Orange County. In addition, only board-certified Anesthesiologists are involved in your care, which I believe is paramount to patient safety during your surgical experience. Inpatient surgeries and select outpatient procedures are performed both at Hoag and the University, which is a top 100 hospital."

Among Newport Beach residents, Dr. Kosins is known as the go-to plastic surgeon for rhinoplasty. He has performed a wide range of procedures, and many of his patients have left great reviews of results they achieved with the practice.

"After doing a lot of research and meeting with two other surgeons, I knew once I met Dr. Kosins and had my consultation with him that he would be the doctor to whom I could trust with doing my breast lift and augmentation," says Tracey, one of Dr. Kosins' patients. "It's been six weeks since my surgery, and I'm beyond thrilled! He exceeded my expectations and delivered everything that we discussed prior to my surgery. I'm so happy with how they look, and he really goes out of his way to make you feel special. I have to say too that his staff is unbelievable! They are the nicest, kindest group of people! Every time I go in for an appointment, they are always so happy, helpful and so personable! I've never met a group so nice! Thank you to Dr. Kosins and his staff for doing such an excellent job! I would (and do) recommend him to anyone looking to have their breasts done! You will be happy if you do!"
