

Non Surgical Lip Augmentation Procedures Available At Ethos Spa

November 06, 2020

November 06, 2020 - PRESSADVANTAGE -

Summit, NJ-based Ethos Spa, Skin & Laser Center is pleased to share that they are welcoming clients who wish to have lip injections performed in the near future. As the company is doing their part to negate the spread of the COVID-19 pandemic, they encourage clients to book ahead and familiarize themselves with all relevant safety measures, such as social distancing and wearing masks when possible.

An excellent alternative to plastic surgery, due to their far more affordable and non-invasive nature, lip injections are a type of dermal filler that can help add volume to the lips (or reshape them to a desired point). While results may vary between the type of dermal filler used, lip injections typically become noticeable within 24 hours of a session, and this rapid pace is helped by the fact that the procedure requires very little downtime.

Every patient is different, and this means that each needs a unique approach to ensure they achieve the result they want. The team at Ethos Spa takes this into account every time they host a client for a

consultation, taking care to look into the precise result that is hoped for as well as being realistic with what is achievable. Ethos Spa holds a firm commitment to ensuring their patients always understand everything they need to about any procedure. In many cases, this may involve being transparent about the length of a given procedure, its possible side effects (if any) and how much down time a patient may expect. However, the clinic makes patient comfort their utmost concern, and this means they are also afforded the right to back out of any procedure if they are not completely on board.

“Even a relatively simple procedure like a lip injection is taken very seriously at the clinic,” says Dr. Hardik Soni of Ethos Spa, Skin and Laser Center. “It is your body, after all, and we will not try to pressure you into any procedure you don’t feel completely comfortable or don’t understand it well enough. This is also why we offer free consultations for many of our procedures – you are able to explore all of your options before you make any commitments. However, as many patients will attest, we are confident that you will trust us to deliver the look you’re looking for.”

Clients are welcome to contact the medical spa through their official Facebook page if they wish to learn more about the various services offered or discuss a possible appointment with a representative. The page is often updated with media and resources on Ethos Spa’s work, including client testimonials, insight on various treatments and their benefits, messages from the beauty clinic’s doctors and more. Through this platform, Social media users may use this platform to quickly get in touch with the clinic and obtain an overview of the treatments they wish to undergo.

The clinic offers a variety of services alongside their popular lip injections procedures, including laser hair removal, tattoo removal, Botox injections, body contouring and much more. Ethos Spa was founded on the premise of taking a holistic approach to beauty and skin care while placing a high priority on every patient’s personal requirements, and this has led to their patients being able to enjoy the luxury of non-invasive yet highly successful procedures.

Kathleen Escobia found themselves, “Very impressed with Dr. Soni,” following their recent appointment. “Very, very, very impressed. He took his time, explained thoroughly, unlike all the other professionals I’ve encountered who seemed to rush. It is about patient care, and Dr. Soni is all about patient care. The staff was sweet as well.”

Another review from long-time client Elena Miglino helps illustrate the fact that the clinic has not wavered from these policies since they first opened their doors. “I have been going to see Dr. Soni for two years now, and needless to say I’m obsessed. They are so professional, so knowledgeable and amazing at their job. I really like to keep my Botox and filler minimal for natural results, and they are always sure to make me comfortable! I love them! Definitely five stars.”

More information is available on the clinic's GMB website as well. Clients may find contact details, book an appointment directly or browse a comprehensive list of the clinic's services at their convenience. Similarly, they may reach out to Dr. Hardik Soni of Ethos Spa, Skin and Laser Center for details regarding a specific procedure and so on.
