Fresno CA: A multi-generational home has hit the Fresno CA market. The property features 2,772 square feet of living space and has a detached mother-in-law unit.

The Fresno CA home is located in Sunnyside Country Club Estates 3 Subdivision. It has 4 bedrooms, 2 bathrooms, and sits on 1 acre of land.

The home comes with all the amenities ideal for comfortable living. These include a golf course, swimming pool, tennis courts, and exercise facilities. This Fresno CA home is also surrounded by three National Parks.

The Fresno home comes with a spacious interior that is great for entertaining guests. The formal dining room is past the living room and is a perfect spot to eat and spend time with family and friends. The formal dining area is well suited for entertaining crowds both large and small.

The family room of this Fresno CA property is the perfect place to hang out, watch movies, play games, or relax. The four cozy bedrooms are also stylish and comfortable.

The best thing about this home for sale in Fresno CA is its detached mother-in-law unit. It features a full bathroom, kitchenette, closet, and bedroom/living area. This extra unit is convertible into a home office space or a living suite for in-laws.

?The privacy allows them to have their own space while still getting to spend time with you and your loved ones," said Jason Nenadov.

The original adobe construction of the home remains intact with its original character. ?This property is an entertainer?s dream. There is a swimming pool, a barn, and an extensive garage/shop," Jason Nenadov added.
