The amount you will have to pay will be

largely dependent on how long the job takes and how difficult it is. Tree removals in areas featuring underground utilities or buildings nearby often cost more.

Since we have already looked at the tree removal cost, below we will look at the average cost of other tree services:

Tree Trimming and Pruning Cost

Hiring a professional to trim/prune a single tree can cost anywhere between \$80 and \$1,000+, with the typical price range being \$250 to \$500. Expect \$80 for your small tree, \$175 for the medium-sized tree, and about \$250 to \$1,000 for a tree featuring a height of over 50 feet.

Note: Things like diseases, accessibility, pests, etc. can also affect the tree trimming cost significantly.

Stump Removal Cost

The average stump removal cost ranges between \$60 and \$350 per stump depending on various factors such as accessibility, type of tree, and most importantly, stump size. If you have a large stump featuring extensive roots on your property, you should expect the complete stump removal cost to be on the higher end.

If the cost of completely removing the stump is out of your affordable range, you can opt to grind the stump. In Rancho Cucamonga, stump grinding costs an average of \$100 to \$150. The per diameter inch cost ranges between \$2 and \$4.

Arborist Service Cost

If you need the arborist to help with trimming a small palm tree, \$75 can get the job done. If, however, the arborist has to help with the removal of a 100-year-old oak tree, the cost can be as high as \$5,000. On average, however, most arborist services will cost between \$375 and \$1,500."}},"@type":"Question","name":"How Soon Can You Cut Down a Tree?","acceptedAnswer":{"@type":"Answer","text":"A wide range of reasons can necessitate the removal of a tree.
