

Dentist in Andover Hampshire Offers Dental Treatment Options For Best Results

November 14, 2020

November 14, 2020 - PRESSADVANTAGE -

Dental Concepts Andover, a dental office based in Andover, Hampshire, UK, has announced that they are offering various dental treatments that are designed to provide the best results possible. These treatments can be classified under different categories, such as cosmetic dentistry, restorative dentistry, preventive dentistry, general dentistry, orthodontics, implants, face and beauty, and treatment for nervous patients. More about their services can be gleaned from their website at <http://www.dental-concepts.com>.

Dr. Manish Chitnis, owner and principal dentist at Dental Concepts Andover, says, "We are really proud and privileged to have changed some many lives and more at Dental Concepts. Enhancing your smile not only helps look better, it has a massive effect on your confidence and social outlook. Of course, you can eat better too!?"

Cosmetic dentistry consists of teeth whitening, white fillings, porcelain veneers, smile makeovers, and gum contouring and teeth reshaping. Teeth whitening is a simple and non-invasive cosmetic dental treatment designed to whiten the colour of the patient's natural tooth enamel, thus enhancing the beauty of his or her smile. Dr. Chitnis offers one of the best teeth whitening systems available that includes a combination of in-office and at-home whitening procedures.

Porcelain veneers are used for front teeth that are chipped, stained, or misaligned, providing a good natural-looking appearance with minimal tooth adjustment required. They are made of very thin porcelain and are fixed in place using a special strong bond so very little preparation is required for the tooth. A precise shade for the porcelain veneer can be selected to ensure that it matches the natural colour of the other teeth.

White fillings may be used if the tooth decay is not too serious. The cosmetic dentist will get rid of all the decay and then restore the tooth using white tooth coloured filling. If the patient has silver amalgam fillings, the dentists can safely replace them with white fillings.

The dentists at Dental Concepts Andover can also provide gum reshaping and tooth recontouring. Aesthetic recontouring of the teeth can be provided with minimal adjustment to the teeth. By making minor changes that modify the way the teeth reflect the light, misshapen or twisted teeth can be camouflaged without resorting to more invasive procedures. The shapes of the gums may also be modified to lengthen the teeth and provide a more beautiful smile. Those who would like to know more about the dental practice may also take a look at a recent article released at <https://www.pressadvantage.com/story/39197-dentist-in-andover-hampshire-dental-concepts-offers-general-preventive-cosmetic-and-restorative-denti>.

The team at Dental Concepts surgery can also provide a smile makeover, which is the procedure for creating a brighter, better, and healthier smile using one or more dental procedures, including tooth implants, braces, brightening, repair of chips and cracks, or installation of tooth veneers.

Dental Concepts Andover can point to their highly positive reviews as proof that they can really provide the best possible results for their patients. They currently have an overall rating of 4.9 out of 5.0 on Google Maps. For example, Eyad A. gave them a five-star rating and said, "I would like to thank the wonderful and amazing Dr Aditee for the root canal treatment that I've received at Dental Concepts. My teeth look perfect now! and no pain anymore. Thank you so much, Doctor Aditee. And thanks for Doctor Manish. They have a remarkably friendly team. I very much recommend Dental Concept Clinic. The best clinic I have been to so far. 5 out of 5."

Meanwhile, Jason T. also gave the dental practice five stars and said, "I have been afraid of the dentist for as long as I can remember. Stems from a bad experience as a young boy. That was many years ago and my fear has not diminished. Following a recent filling falling out I decided to visit Dental Concepts in Andover. [?] My dentist Dr Aditee is a young and exceptional practitioner in the dentistry field. I have probably seen 10 or more dentists in my lifetime and none can compare to this young lady. Her manner and professionalism is outstanding. She understands the patient's needs, takes time to explain what's going to happen and then performs first class dentistry work?."

Those who would like to know more about the dental services offered at Dental Concepts Andover may want to check out their website, or contact them on the phone or through email. They are open from Monday to Friday, from 10:00 am to 6:30 pm. Those who would like to know their exact location or other important information may want to check out their Google Maps page at <http://g.page/dentalconceptsandover/>.
