

## **Style & Beauty by Priscilla Offers Med Spa and Boutique Services in Dripping Springs TX**

*November 13, 2020*

November 13, 2020 - PRESSADVANTAGE -

Style & Beauty by Priscilla has announced that they are offering both a broad range of med spa services and boutique services in Dripping Springs, Texas. Med spa services include laser hair removal, facials, truSculpt, injections, and more. For their boutique services, they offer color analysis and make-up makeover sessions. Priscilla Hardenne, the owner of Style & Beauty by Priscilla, considers herself to be a student of life and a nerdy fashionista. She believes in continuous education to make sure that her knowledge is up-to-date with regards to the latest beauty trends and styles.

One of their popular med spa services is truSculpt iD personalized body contouring treatment for any body type or shape. This has been clinically proven to be capable of getting rid of fat in stubborn areas, such as the flanks and the abdomen. The truSculpt procedure can take as little as a 15 minute hand-free treatment per area. This can be fully customized based on the individual's needs and preferences with no downtime.

Related to truSculpt iD is the truSculpt Flex, which is a customized muscle sculpting treatment that can be

adjusted to the individual's shape, fitness level, and goals to firm, strengthen, and tone the muscles. This is a non-invasive muscle stimulation treatment that provides the individual that extra edge to firm, strengthen, and tone the body. They can customize the placement of up to 16 handpieces to target several small and large muscle groups. This procedure has been clinically proven to build or tone muscles in just 45 minutes with as little as four treatments. Those who would like to learn more about the med spa and their services may want to follow their Facebook page.

Style & Beauty by Priscilla also offers laser hair removal, using the Lumenis SPLENDOR X technology, which allows them to help patients get the best laser hair removal results possible in the least amount of time and pain. They can also provide botox injections and dermal fillers to get rid of unwanted wrinkles and fine lines that can make people look and feel older than they really are.

They can also provide Geneo Oxygen Facial treatments, particularly the OxyGeneo 3 in 1 Super Facial. This can provide a number of benefits, such as: skin renewal with improved cell production; youthful glow of the face; nutrient infusion to optimize skin healing; oxygenation and hydration of the skin; stimulated production of elastin and collagen; and a non-invasive approach suitable for all skin types.

Style & Beauty by Priscilla also offers intense pulsed light (IPL) photo facial therapy, using the Lumenis M22 laser device. This may help in minimizing freckles, age spots, acne prone skin, sun damaged skin, rosacea, and vascular skin conditions. IPL photo facials is a simple and painless treatment that provides a glow to the patient's skin like no other.

They can also offer microneedling treatment, which is used for skin tightening, stimulating natural production of collagen, and elimination of wrinkles. Patients are able to experience skin rejuvenation through a total natural healing process when microneedling treatment is provided. It makes use of tiny, painless needles that pierce the skin's outermost layer. This stimulates the body's natural healing systems that in turn forces the body to produce collagen and elastin, which help in the generation of new skin over the old and in renewing the skin cells.

They can also provide Fibroblast skin tightening treatment, which involves the use of a plasma pen that specifically targets the fibroblasts in the body. Fibroblasts are cells that are capable of synthesizing collagen and the extracellular matrix, producing the structural framework for animal tissues, and playing a vital role in wound healing. Fibroblast treatment can get rid of wrinkles, stimulate collagen production, tighten the skin; stimulate tissue regeneration, and enhance the healing of scars, age spots, and other skin conditions.
