Valencia, California: The Healing Touch announces their answer to fine lines and wrinkles. Their Premium Night Gel was created with the sole purpose of eliminated and smoothing out wrinkles. Their team focused on bringing to market a night cream that would go on smoothly with no staining properties and no foul smell.

Beauty is forever, regardless of your age. It starts on the inside and works its way out. That part is natural. The part that we do is help your skin keep up with you," states Raul Meza, Co-founder of The Healing Touch. "If you do nothing then wrinkles will come and continue to come. When you take action with the right anti-wrinkle night cream then you are sending your skin a message that reminds it that it is still young and you expect it to act that way."

The Healing Touch is a manufacturer of premium skin products including scar removal gels and anti-wrinkle night creams. Their products can be found on Amazon and all carry a 4 to 5 star review. The company is known for its outstanding customer service and vast wound care knowledge.

The Premium Anti-Aging Night Cream is to be applied at least thirty minutes before going to bed to ensure the best absorption. It is intended as a night cream so that the active ingredients work while the body replenishes itself during sleep.

"Our company works on the foundation that you should get what you pay for. So if it doesn't do what we say it will do then you shouldn't have to pay for it. This means two things, first we back our promise with a no questions asked 60 day full money back guarantee. Second of all, when we create the products we make sure we create a recipe that works! If it didn't work then with this type of guarantee we wouldn't be in business very long," stated Meza.
