Elite Cosmetic Dentistry Clinic The Art Of Dentistry Welcomes Patients Searching For "Sedation Dentistry Near Me"

November 13, 2020

November 13, 2020 -
The Art of Dentistry, an elite cosmetic dentistry clinic in San Diego, welcomes patients who are searching for ?sedation dentistry near me?. The clinic is run by Dr. Addleson and Dr. Landau who hold advanced certificates for post-doctoral training in cosmetic and restorative dentistry.

Sedation dentistry allows patients with conditions such as dental anxiety, fear of needles of drills, sensitive teeth, dental phobia, low pain tolerance, and sensitive gag reflex to get essential procedures that may not have been possible without it. The clinic offers advanced CEREC technology which is a modern, efficient, and concise solution for tooth restorations. According to the clinic, procedures are completed in just one office visit. They claim CEREC crowns and veneers offer convenience with superior results. Dental crowns are essentially a cap that goes over a damaged tooth. They can be used to restore teeth with conditions such as large fillings, excessive wear, cracked teeth, broken cusps, dental implants, and root canals.

Dr. Lawrence Addleson is one of only 45 dentists in the world to earn the title of ?Accredited Fellow? of the American Academy of Cosmetic Dentistry (AACD). He is focused on reconstructive, restorative, and cosmetic

dentistry. The clinic claims that his extensive knowledge makes him an expert on natural-appearing smile designs and makeovers. Dr. David Landau specializes in cosmetic, restorative, and reconstructive dentistry. He has been practicing in the Hillcrest- Bankers Hill area since 1989. Dr. Landau is one of only 400 dental professionals in the world who has earned the distinguished credential of ?Accredited Member? of the American Academy of Cosmetic Dentistry (AACD).

Merri Turner, a spokesperson for the clinic, says, ?Our talented team at The Art of Dentistry offers a range of services to accommodate your dental needs. We offer General Dentistry, Implant Dentistry, and Cosmetic Dentistry. With a focus on collaboration, we believe in working together to make sure our patients receive highly specialized care no matter what treatment or procedures they may require.?

Speaking on the clinic?s general dentistry offerings, Merri says, ?A top priority is avoiding and/or treating gum disease. Characterized by inflamed or bleeding gums, sensitive or missing teeth, and bad breath, or Halitosis, it?s important to catch Gum Disease as early as possible. The earlier you begin treatment, the better, as gum disease can permanently damage your smile if left without care. Gum disease has also been linked to other health concerns including, heart disease, stroke, cancer, diabetes, and preterm labor. If you?re worried about gum disease, don?t hesitate to book an appointment with one of our doctors today, and if you do need treatment, we offer a minimally invasive Laser Gum Surgery that is both safe and effective.?

Speaking on the clinic?s cosmetic dentistry practice, Merri says, ?Our smile can play a huge role in our self-esteem and our confidence. If there?s something about your smile that leaves you feeling low, it may be time to consider a cosmetic dentist. You may increase your confidence, improve functionality, and increase your self-esteem. At The Art of Dentistry, we have developed a one-of-a-kind formula for creating smiles. We follow a unique 7 Step Process to ensure our patients leave with a perfect smile. Combined with advanced technology and our philosophy of collaborative treatment, we make sure our patients receive care that is both comprehensive and precise.?

Speaking on the clinic?s use of CEREC technology, Merri says, ?We offer advanced CEREC technology that can be completed in just one office visit. If you are looking for an efficient and less time-consuming solution for tooth restorations, it may be time to talk to our staff about CEREC crowns, bridges, and veneers. The superior results of this technology may be exactly what you need, without having to schedule multiple appointments. At The Art of Dentistry, we respect how valuable your time is, which is why we offer crowns, bridges, and veneers in just one visit. Don?t waste time with inconvenient traditional solutions that involve long waiting periods, goopy impressions, and temporary crowns. We offer our patients a one and done visit with our same high-quality care.?
