ETI Precision joins 674 other companies from 49 states, plus the District of Columbia, who have shown a commitment to hiring veterans, but also ensuring that they have a long-term career and growth plan that uses the diverse skills they acquired through their military service.

The HIRE Vets Medallion Award is based on a number of criteria, ranging from veteran hiring and retention to providing veteran-specific resources, leadership programming, dedicated human resources, and compensation and tuition assistance programs ? with requirements varying for large, medium, and small employers.
