Traverse City Roofing Company Pleased to Share Yet Another Glowing Review

December 04, 2020

December 04, 2020 -
TraverseCityRoofing is a company that works hard to satisfy their customers. That?s why they are always proud to share the reviews that their business and residential customers take the time to write about their services. Such is the case with a recent 5-star review where a person just visiting a home that they were working on was so impressed with this company?s roofing work, they felt compelled to write a review. The many glowing reviews that the company has received come about because of the expertise and exceptional customer service that this company brings with them to every roofing job that they do in the Michigan counties of Grand Traverse, Leelanau, and Antrim.

Emmanuel Ludwig, who recently left the above-mentioned Traverse City Roofing 5-star review, wrote, "What a great experience with Traverse City Roofing!! When you are looking for a roofing company you must get ahold of these guys. They recently finished my cousin's roof that we stayed with and it looked amazing." So far, including this one, TraverseCityRoofing has amassed some 20 reviews on their Google Maps Listing. Each one of these rated the company a perfect 5 out of 5-stars. That is an accomplishment that any service orientated business can be proud of. On this same Google Business Listing, Jonas Delaney stated, ?Thanks so much Terry at Traverse City Roofing! When you are looking for a reliable roofing service you should definitely contact Traverse City Roofing because they are the best.? Similar testimonials with high praise can also be found on their website. Dulcie Garmon says, "Roofing came second nature to this company! They made things very convenient and worked in conjunction with my schedule. They did an awesome job with our roof. Would hire them again in a heartbeat!?

?We take every review that is written about our services very seriously. The reviews that we receive act as a measuring stick for our business because they let us know what we are doing right and what we may need to improve upon,? said the company spokesperson, James Thomas. ?Fortunately, most of our reviews are highly positive and that directly reflects the commitment we have to satisfy every single customer in the Northern Michigan area that asks us for roofing assistance.?

Thomas went on to say that on the residential side of their roofing service they do everything from small repairs to entirely new roof installations. They are specialists when it comes to removing old shingle and then replacing it with a new watertight layer of this affordable roofing material. He added that they now have many more choices in the shingle that they offer their re-roofing customers such as architectural shingles. These types of shingles mimic the looks of more expensive roof coverings such as slate or tile but do it for a fraction of the cost. The company spokesperson said that they are also residential metal roofing specialists and their raised seam roofing panels are not only highly decorative, but they are extremely durable and virtually leakproof too.

According to the company spokesperson, they have worked hard to make a name for themselves on the commercial end of their roofing business too. That has led them to become one of the most recommended commercial flat roofing service providers in Northern Michigan. The company works with such popular flat roof solutions as EPDM, PVC, TPO, bitumen, modified bitumen, metal, and reliable and inexpensive built-up roof coverings. He added that they do not consider any commercial roofing project to be too big, too small, or too difficult for them to complete. Thomas stated that they have also invested much time and effort into becoming one of the best wood and vinyl replacement siding contractors in the area.

Those who would like more information on the services that these Traverse City Roofing Contractors offer can call them, send them an email, or click-on and fill out the ?free estimate? form found on the homepage of their website. TraverseCityRoofing is BBB accredited, highly rated on Yelp.com, and is approved for use by those that are Home Advisor subscribers.
