Park Ridge Options Medical Weight Loss Gets a New Website

November 21, 2020

November 21, 2020 -
Options Medical Weight Loss, a weight loss center in Park Ridge, IL has launched a new website. It serves the neighborhoods of Park Ridge, Des Plaines, Edison Park, Rosemont, Norwood Park, Norridge, and Glenview.

The center says that interested parties who make the decision to lose weight at the Park Ridge medically supervised weight loss clinic will receive a weight loss plan that is personalized. The weight loss doctor in the Lakeview weight loss center understands that each weight loss patient has his or her own struggles and each weight loss journey is unique, which is why each participant is provided a complete plan that can be modified to fit a particular lifestyle.

The completely medically supervised weight loss plans provided by the Park Ridge, IL weight loss doctor include the well-known and successful hCG Diet, and a modified ketogenic diet.

Each recommended weight loss plan is supervised from start to finish by a trained weight loss doctor, which means that the available plans help weight loss patients safely reach their weight loss goal. In addition to

weight loss doctors prescribing weight loss plans, the weight loss center in Lakeview will offer medical-grade products to help the weight loss process. Medications to aid weight loss and appetite suppressants that will be offered by this Illinois weight loss clinic include Phentermine for weight loss, Phendimetrazine, Diethylpropion, Non-prescription programs, hCG injections to pair with the hCG Diet, Lipotropic fat burning injections, and B12 injections.

The center says that Lakeview, IL area residents who are searching for a flexible medically supervised weight loss plan should consider this Options Medical Weight Loss location when it opens in fall 2020. No matter the medically supervised diet plan a customer has in mind, they will sit down with a Lakeview weight loss doctor to discuss which plan is the best fit for their lifestyle. Losing weight under the supervision of a weight loss doctor is the best choice for any weight loss patient hoping to reach a specific weight in a way that will match well with his or her life.

A spokesperson at the weight loss center says, ?Now is the time to stop putting your weight loss journey on hold. Make a plan to get healthy. Wellness and an improved life will be waiting for you at our Lakeview Options Medical Weight Loss Clinic in fall 2020. However, the weight-loss professionals at our new clinic will be able to help you ahead of the location opening, answering questions about topics like the hCG Diet and our modified ketogenic diet. We offer the medical weight loss support help you want.?

According to a review by Dana Mitchell, ?I?ve never tried medical weight loss before and let me tell you, it has been the BEST decision of my life. The team at the south loop location have been my support system since day one, and I cannot thank them enough for my success.?

According to a review by Kaitlin A., ?This business is very professionally and I always answered all my questions. I?ve been going here since May 2020 started with the weight of 186.5 and as of July 27, 2020 I am down to 175.5. As of 7/27/2020 I have lost 10pds. I have been unable to exercise do to a knee injury. But overall I think I?m doing good. I?ve been trying to eat more healthier. I will continue to go here until I go to my weight of 160.0. I have been released from my doctor he can start my exercising this week so hopefully I will lose it faster. I also have to keep in mind that I?m 69 years old and it?s probably gonna be a little harder for me. But everyone here is just so terrific and so supportive. Kudos to all!?

Patients can visit the weight loss center?s website for a contact form that allows them to sign up for a free consultation. Patients can reach the clinic at its phone number (847) 807-8377.
