

Roof.Net Quality Work Inspires Customer Who Never Leaves Reviews to Make an Exception

December 04, 2020

Fairfax, Virginia - December 04, 2020 -
A recent glowing review was left on Roof.Net?s services by a customer who states that he rarely if ever writes reviews but, in this case, he felt compelled to do so. It speaks to the quality of the roofing work that this Fairfax, Virginia-based contractor has long been known for. This new 5-star review can be seen on the company?s Google Maps Listing that is found here at https://goo.gl/maps/MF5g2aXGHRTJ97258.

In the above-mentioned review, Aaron Goudarzi wrote, ?I usually don't leave feedback, but this case is exceptional. Ken has been most dedicated and professional. This is just a small token for thanking him for his recommendations and professional expertise. My home's roof replacement was completed within the promised time and the promised cost, which was significantly less than other roofing companies. The crew was professional, followed COVID-19 protocols, and did an outstanding installation. There were no short-cuts, and their attention to detail impressed me most. When the crew left the premises, there were no nails or debris in the yard, and the roof looked absolutely stunning. When you decide to replace your roof, Ken's expertise and experience can save you time and money. He will recommend the best solution to fit

your budget, and likewise, you will be delighted with the outcome.?

?I have to say that I am particularly touched by the review that we recently received from Mr. Goudarzi,? said company owner Ken Briesemeister, ?That?s because anytime that someone who rarely writes reviews feels so strongly about the quality of the service that they received from us that they decided to write one, it tells us that we are really doing our roofing work the right way.?

This roofing company has an enviable and rarely heard about perfect 5-star rating on their Google Maps Listing even after over 400 reviews have been left on their services. The company also boasts having many favorable reviews left on their services on Yelp, the Fairfax area BBB, CustomerLobby, and Top Rated Local. Similar high praise for Roof. Net?s services can also be found on the reviews that have been left on their Facebook Page which is found here at https://www.facebook.com/roofrepairva. This also explains why this contractor that specializes in roof replacement services has been on the receiving end of some 22 national awards for their highly-rated roofing services.

The number of positive reviews is not rare for this reputable Fairfax, VA-based roofing company. Many glowing reviews have been left on the same Google Maps Listing that state how complete and well-rounded the company?s roofing services are. An example of that is this review from Giuseppe Donadio, who states, ?I?m very pleased with the quality and craftsmanship of the work done by Ken B. and his roofing crew. They replaced the roof on my townhouse on the day and time promised. In addition to replacing the shingles, they had to replace a fair number of the underlying sheets of plywood too. This was all done with the utmost professionalism and courtesy by both Ken and his crew. I really appreciate how thoroughly they cleaned up after themselves. At the end of the day if it wasn?t for an outstanding looking new roof you would not be able to tell that they were event there. A 5-star job for sure.?

Briesemeister also stated that their customer service goes well beyond just the roofing work that they do. He cited the helpful roof-related blogs they like to write as an example. A recent blog they released, which talks about why roof cleaning is so important and how to get it done, can be seen here at http://varoofrepair.blogspot.com. The company owner added that the team at Roof.Net will continue to do whatever it takes to remain one of the highest-rated roofing service providers in the entire nation. He says that those who would like more information on their roofing services can contact him by phone, email, or by using the ?Get a Quote? form that?s found on the company website.
