

Miramar Tree Service Company Tree Service Experts

Miramar Opens New Office

November 30, 2020

November 30, 2020 - PRESSADVANTAGE -

Tree Service Experts Miramar, a local tree service company in Miramar, Florida, has opened a new office in the city. The decision to open the new office was made in order to make their services accessible to more home and property owners in the area. The family-owned tree service company has also added certified arborists to the staff and are now providing arborist services to the community.

More information can be found on the company's website at <https://www.thelocaltreeexperts.com/fl/miramar/>

Tree Service Experts Miramar has added certified arborists to the staff at the new office to manage projects and provide expert tree services to home and property owners in the area. Certified arborists undergo specialized training that makes them uniquely qualified to care for trees. They study the structure and function of trees. Things like growth, cultivation, reactions to pruning, disease, de-compartmentalization of decay, and all the various aspects of tree surgery. Arborists are also interested in the management and study of individual trees, shrubs, vines, and other woody plants. Their job is more generalized than a tree service technician, as arborists care for the health of the entire tree, much like that of a family doctor.

The team of arborists at Tree Service Experts Miramar are ISA (International Society of Arboriculture) certified and are providing services such as tree trimming, pruning, emergency tree care, stump removal, tree removal, routine maintenance and preventative health services. Certified arborists at Tree Service Experts Miramar's goal is to always attempt to save and recover a tree back to good health. However, that is not always possible. Company Representative, Karina Montague, put it this way: "Our certified arborists are highly skilled and can analyze and diagnose a tree to provide solutions. While we strive to save every tree we can, sometimes tree removal becomes necessary. Before opting to remove any tree however, we will try to find a solution that can allow you to keep your tree."

Tree removal can pose many dangers, so it is best done by professionals with the proper tools and

experience. Homeowners who attempt their own tree removal may be injured by falling limbs, malfunctioning equipment, power lines, or the tree itself. By letting tree service professionals handle the different tree services, homeowners can use their time to handle other important things. The certified arborists at Tree Service Experts Miramar have the knowledge and experience to remove a tree safely and prevent damage to property.

When asked about the methods used for tree removal, Company Representative, Karina Montague, stated, "Our goal is to provide exceptional tree service to all residential and commercial clients looking to maintain or improve the natural surroundings of their homes and businesses. We always use the safest tree removal methods for property safety, to ensure efficiency, and to promote safety!"

Tree Service Experts Miramar is a family-owned tree service with over 25-years of experience caring for the natural landscape of communities in Broward County. The company was found in 2018 and is located at 11280 Interchange Cir N, Miramar, FL 33025.
