

Kent Tree Service Company Tree Service Experts Kent Expands Location and Service

November 30, 2020

November 30, 2020 - PRESSADVANTAGE -

A local Kent tree service company, Tree Service Experts Kent, has opened a new office in the city. The reason given for the new office opening is to be able to provide quality tree services to more homeowners in the local area. The tree service company has also added Certified Arborists to their team to manage projects and offer more arborist services to the community. The arborist services include tree trimming, pruning, emergency tree services, and preventative maintenance to help keep trees healthy.

Company Representative, Wendy Pike, stated, "In these difficult times, Kent homeowners already have enough responsibilities at home, work, or even their own businesses. By allowing our professionals to handle the different tree services on their behalf, it gives them their time back. They can now use that time for more important things."

More information can be found on the company's website here: <https://www.thelocaltreeexperts.com/wa/kent/>

Tree removal services should not be taken lightly. The serious business of tree removal should be left to professionals. When a tree is cut down, it may or may not stay in one piece. Some falling trees may have loose limbs that will fall free of the tree as the tree comes down. These loose limbs and various other debris that may be in the tree can hurt people on the ground or damage equipment and personal property.

At Tree Service Experts Kent, Certified Arborists are on hand to manage projects to make sure safety is always top of mind. The arborists at the company are ISA (International Society of Arboriculture) Certified. ISA Certified Arborists are arborists that follow a code of ethics that ensures the reliability and credibility of their work. Hiring a tree service that has certified arborists on staff is the best way to guarantee the safety of homeowners, their property, and the workers.

Company Representative, Wendy Pike, put it this way. "We are uniquely positioned to handle any type or size

project because of the highly skilled certified arborists we have on our team. We are able to properly analyze the health of trees and provide professional solutions to bring a diseased tree back to optimal health. Our goal is to always try to save the tree. However if that is not possible, our professionals will use the safest methods for the tree removal."

Homeowners frequently want to know what the costs are for tree removal services. According to the company's website, on average, a homeowner should expect to spend between \$250 and \$550 on the removal of a single tree. The amount they will have to pay will be largely dependent on how long the job takes and how difficult it is. Tree removals in areas featuring underground utilities or buildings nearby often cost more.

Those interested in a consultation or to learn more about services at Tree Service Experts Kent should contact their customer service by calling 253-387-1410. They can also visit the company's website for more information.
