

Back Office Staffing Solutions Releases New Employer of Record Software Portal Enabling Clients and Candidates Real Time Access to All Data

December 08, 2020

December 08, 2020 - PRESSADVANTAGE -

Back office staffing solutions today announced the release of their proprietary software portal for temporary and contract workers. The portal enables a customized and fully automated online onboarding for temps and contractors. Additionally, the portal allows for custom branding by the recruiting firms, as well as giving customers and contractors real-time information, such as payroll information, outstanding invoices, real-time agings, historical payments, and data. Learn more about Back Office Staffing Solutions on their website at <https://home.backofficestaffingsolutions.com/>.

“The technology in the EOR sector has lagged other industries for years. There has been a great demand from our clients to automate the entire onboarding, payroll funding, and back-office process,” says Neil Lebovits, CPA, CTS, CPC, founder of Back Office Staffing Solutions.

Boss features include partner customization, full API integration into their CRM/ATS, as well as weekly updates to the software. Lebovits says, “We view the portal similar to an iPhone or Android”. You will receive a free software update on a regular frequency, allowing BOSS to maintain the top software solution for their

clients. You can also join them on Facebook.

Backoffice Staffing Solutions (AKA BOSS), is a SAAS solution as much as a boutique back office. It's an employer of record, payroll funding, and other back-office services provider for the staffing & recruiting industry. The new technology was beta-tested in 2019- 2020 and was launched formally in 2020. The founder, Neil Lebovits, has been a partner in the EOR business for almost a decade and was the ex global president of Adecco and Ajilon.
