SYDNEY, NSW - December 08, 2020 -
Sydney, New South Wales-based Clean Group is reaching out to the community to answer some of the most common inquiries posed regarding their office cleaning services. This topic is addressed by Suji Siv, a representative of the cleaning experts, who shows a great interest in helping educate the community about this resource. The community is also welcome to look up the company?s FAQ page (on their website) for more insight.

"We are trying to make everything more convenient for our clients by addressing these inquiries publicly, as this information will now be available for them to read and consult at any given time," states Siv. He continues, "We tried to cover as many topics as possible, though we will still be answering any other inquiries that come our way through email, phone or which are submitted through the contact form on our website. If you are curious about something and cannot find an answer in our FAQ section, you are always welcome to reach out to us for a timely response."

The FAQ covers some of the most important topics that any new client will undoubtedly be interested in, such as the type of cleaning services offered by Clean Group. Here, the company explains that while they offer a broad variety of services, they mostly focus on commercial cleaning plans such as routine cleaning, carpet cleaning, internal-external window cleaning, office cleaning and more. They explain that all of these services are customised and carried out depending on each client's needs, catering to different situations, budgets and schedules.

The cost of these services is another common question addressed by the company. They explain that the cost will depend on the time, material and type of equipment needed to complete a given job. While there is no one quote that fits all situations, they do offer free onsite visits to determine the best price and cleaning program for their client's requirements. This is the best time to ask for assistance and professional advice on the best kind of cleaning needed for a specific area.

All of Clean Group's services are carried out by professional, reliable and well-trained cleaners. The company only employs full-time cleaners, helping ensure that they are committed to high cleaning standards in every aspect of their work. This, along with the state-of-the-art equipment the company utilises (as well as full insurance coverage for all of their employees) elevates the company's services to the highest standards.
