

Options Medical Weight Loss Offers Premier Weight Loss Services In Orland Park

December 07, 2020

December 07, 2020 - PRESSADVANTAGE -

IL-based Options Medical Weight Loss Orland Park is pleased to announce that they are offering premier weight loss services to those who want to lose some pounds and get healthier. Options Medical Weight Loss is a highly regarded medical weight loss facility, with clinics all over the United States.

As noted on their website, Options Medical Weight Loss believes that people need to make the right changes to both their nutrition and lifestyle to cut down weight and achieve their weight loss goals. They understand that everyone has their own individual weight loss journey ? which is not always an easy one to go through. This is why they make their services easily accessible to the community at large, ensuring that everyone can have the full support they need when going through their weight loss journey.

The clinic provides this assistance in several ways. They offer FDA-approved appetite suppressants like Phentermine, for instance, as well as other prescriptions that can help make losing weight an easier process. They also provide B12 injections, HCG injections, Lipotropic fat burners, the Options diet system, Options snacks and meals and even personalized weekly weight loss counseling.

One of the most popular weight loss solutions at Options Medical Weight Loss is the HCG diet. HCG, or Human Chorionic Gonadotropin, is a hormone produced by pregnant women. The HCG diet was discovered in the 1950s by an endocrinologist who noticed that the people he had given the hormone to reported that they did not want to eat constantly, and thereby lost weight over time. He studied this phenomenon at length, which eventually led to the weight-loss protocol of today.

HCG works by promoting the production of other hormones. Once it is injected into a patient's bloodstream, it causes the brain to give off lipids (hunger-stunting hormones). This causes the cravings to disappear, in turn causing the body to burn through its stored fats to give the person the necessary energy to keep going. A person on the HCG diet can burn close to a pound of fat in a single day. This makes the HCG diet an easy and painless way to lose weight. The benefits of the HCG diet do not stop there, because it also helps lower cholesterol levels as well as the odds of heart-related diseases. It also promotes hormonal body balance.

Due to their wide range of proven weight loss solutions, Options Medical Weight Loss - Orland Park has received great reviews for their services. Matthew Daugherty says in a 5-Star Google review, "When I started with the options program, I was nearing 300 lbs and had known for a while that I needed to lose weight, but hadn't been able to find the motivation to do so. When I came in for a consultation, though, the staff were really friendly and supportive. The program was explained to me, and it sounded really manageable."

The review goes on to explain, "I had a goal of losing around 80 lbs, but I wasn't sure that I would be able to. But, 7 months later, I've hit right near my goal, and I couldn't be happier with Options and with the progress I've made. The staff throughout the whole process were incredibly supportive and understanding, and I couldn't recommend this program more if you are trying to lose weight!"

Another patient says, "This facility is amazing. The staff is friendly and knowledgeable, and the program works. The program is tailored to meet your specific needs. Give it a try. It is well worth every penny spent. But it really is not too costly, considering how much money we can all waste on frivolous things. I lost 50 pounds in eight months. I am 54 years old. I thought I could never get this small again. I have 30 more pounds to go, and I am so excited about what the future holds. I now know the proper way to eat for my body type, and I never plan to gain this weight back. This was a complete lifestyle change for me. Plus, I was able to lose all of this weight with very little exercise. I am so excited!"

Those looking for trusted weight loss clinics in Illinois may check out Options Medical Weight Loss's website to learn more about their wide range of premier weight loss services. Additional information is also available on their website.
