

Summit Springs Introduces Properties With Beautiful Landscape In Texas

September 24, 2015

September 24, 2015 - PRESSADVANTAGE -

A Spicewood, Texas based land development company, Summit Springs, has announced the availability of properties that enable families to turn their land ownership dreams into realities. Price Kever, the Sales Manager at Summit Springs recently stated, "We have some beautiful properties that offer breathtaking views of this area of the Hill Country, and are affordable for virtually every would-be property owner."

According to the company, the properties are in an ideal location, only five minutes from downtown Marble Falls, and less than an hour from Austin. The homesites are ready for building your new home, and have underground utilities already in place. All two to ten acre properties come with tax incentives and offer privacy and security with a gated community entrance.

Marble Falls is located on the banks of the Colorado River, and features exceptional views, prompting the Spicewood company to urge buyers to start building as soon as possible. "These properties won't last long," says Mr. Kever. "If you want land that you will love to come home to at night, where you can watch your children and grandchildren grow-up, and see the best of nature along with it, this is the place to be."

Lots are ready for new home construction to begin, and a complete list of the acreage, as well as prices, can be found by contacting the company directly. More about Summit Springs can be seen on the company's official website at www.SummitSpringTX.com, along with contact information for experienced and knowledgeable land consultants. Summit Springs is an affiliate of National Land Partners, LLC, the largest and most successful buyer and seller of residential and recreational properties in the nation. The company purchases large tracks of land, and then develops and sells homesites to consumers at significantly discounted prices.

The land development company specializes in helping consumers find and purchase land where they can build their dream home, and offers a number of services for veterans and various organizations. The Texas Veterans Land Board program assists veterans in purchasing land and offers competitive financing programs, often requiring only a five percent down payment. "We pride ourselves on listening to our customers every step of the way, so we can make their land buying experience the best it can be," states Mr. Keever.
