The Youth Fountain Helps Each Patient Tone Their Stomach With Em Sculpt

December 07, 2020

December 07, 2020 - PRESSADVANTAGE -

Freehold, NJ-based The Youth Fountain is pleased to bring EmSculpt to local clients who wish to achieve their ideal body shape. The clinic is also eager to dispel any doubts regarding this procedure and show their community how many benefits it offers. The Youth Fountain specializes in helping their clients bring their inner beauty to the surface and live as fulfilling a life as possible. As such, they welcome any inquiries from those who wish to learn more, and their office is always open to those who wish to schedule a consultation.

EmSculpt, as the name may imply, uses high intensity electromagnetic therapy to stimulate muscle tissue to grow into the desired form. Briefly put, the treatment causes muscles to contract thousands of times during a single session, thereby improving their tone and strength. The efficacy and safety of this treatment is very well documented (and approved for several regions of the body by the FDA). It can be used to sculpt the stomach, buttocks, abdominal areas and so on.

According to Dr. Rada Shakov of The Youth Fountain, patients will need to consult with one of the clinic's

doctors before opting for this procedure. During the consultation, both parties will go over the patient's expectations and set realistic goals after determining how viable they are as a candidate (though the procedure is compatible with the vast majority of body types). Each and every one of the patient's questions regarding the length of their treatment and so on will be answered here as well. Most will require at least four sessions (that last for 30 minutes each) and feel a bit sore after each session, but the clinic reassures the community that hydrating and stretching regularly can help relieve this discomfort.

A brief look at the clinic's reviews illustrates why their patients trust them for their beauty needs. The Youth Fountain's GMB listing, for instance, has many reviews from patients who were extremely happy with their results.

For instance, Shannon Masterson's effusive 5-Star review goes into some detail regarding the clinic's staff and the way they approached her procedure. Given that patient comfort is one of the beauty clinic's foremost priorities, the team at The Youth Fountain does everything in their power to check that everything is well at every stage of any appointment, whether it involves a procedure or an early consultation. This is also true whether the patient expresses any discomfort with their progress or feels they do not understand enough to make an informed decision regarding their treatments.

Masterson's review explains, "The front desk, the assistant and the doctor were all wonderful! Everything was explained thoroughly. I felt comfortable asking all my questions. Before the procedure was even started, I felt very informed. I also felt we were all on the same page regarding my goals and expectations. My comfort was an obvious priority to the doctor, and I was made to feel comfortable the entire time! I cannot say enough about how pleasant my first experience was at the Youth Fountain! I will certainly be returning, and I have already recommended The Youth Fountain to my friends and family!"

An older review from Sabrina Poppe helps to demonstrate how dedicated the clinic is to delivering a consistently good service no matter what their client is looking for. This 5-Star review says, "Dr. Shakov is amazing! I've gone to quite a few aesthetic spas in the past, and I can tell you that Dr. Shakov is top-notch. I recently moved to Jersey from San Francisco, and I think she is better than any of the doctors I saw in California."

The review adds, "She has a great eye and is so friendly and easy to talk to. She is very conscientious about not over-doing anything and gives a very natural, youthful result. I've had her do filler, Botox, Secret RF (micro-needling), laser hair removal and Laser Genesis, and I couldn't be happier with the results. If you're looking to get any treatments, you don't need to look any further!"

Those interested may contact The Youth Fountain's office to schedule a consultation with Dr. Rada Shakov today. Additional information regarding EmSculpt as well as the numerous other treatments offered at the clinic is also available on their website. Similarly, social media users are welcome to follow The Youth Fountain's Facebook page for their latest news and offers.
