

Why Coronavirus Lockdowns in American Fork, UT Can Impact Dental Health, According to Dentist Near Me

December 14, 2020

December 14, 2020 -

Dr. Jeff Youngquist of Palisades Dental, American Fork, UT, wants to point out that coronavirus lockdowns can impact people?s dental health. This is because lockdowns prevent patients from going to their dentists. Studies in various countries, including the UK and the US, have shown that the closure or reduced hours of dental practices except for emergency dental care services tend to increase the risk of oral diseases and dental health problems. Palisades Dental is a dental practice offering general dentistry, cosmetic dentistry and emergency dental services to people in American Fork and surrounding areas, such as Lehi, Cedar Hills, Highland, Vineyard, Pleasant Grove, and Orem. More about this dental practice can be gleaned from https://palisades-dental-american-fork-ut-dentist.business.site/#summary.

Dr. Youngquist says, ?We always aim to give you the best service possible while being sensitive to your schedule. We do our best to safely get you to see you as soon as we can after you arrive. Whether you come in as a new patient with dental insurance questions, or an existing patient coming in for teeth whitening, or veneers, or simply have questions about wisdom teeth removal or other dental procedures, we are committed to taking good care of every patient who visits our American Fork, UT dental office. Make sure to contact your ?dentist near me? in American Fork and surrounding areas immediately if you have a dental concern.?

The dental team at Palisades Dental, advises people to come and visit the clinic every six months to get preventive dental care. They will conduct a routine checkup that includes but not limited to a comprehensive dental examination, thorough teeth cleaning, and dental x-rays. It is also a good idea to schedule preventive dental care appointments at the ?dental office near me? in American Fork every six months. The reason for this is that this will allow them to develop a custom-fitted plan for each specific patient with the goal of helping them have long-term good oral health.

During the routine dental checkup, the first thing that they will do is clean the teeth of the patient to get rid of any accumulated plaque or tartar, and even food particles that remain stuck in between teeth. A dental hygienist will perform the teeth cleaning to ensure that the patient?s teeth be smooth and shiny. After this, a complete dental exam will be done for the patient to find out if there are any tooth decay or any potential dental problems. They will also perform dental x-rays to check what is under the surface of the mouth, such as the teeth roots and more.

They may also offer emergency dental services for patients in American Fork and neighboring areas. This could be due to a toothache or various emergency teeth problems, such as knocked out teeth, chipped teeth, dental abscess, and more. They can also provide a patient with a dental crown, which can be provided that very same day that a patient makes a visit. This is made possible by their state of the art equipment, such as the CEREC machine that can be utilized for the production of dental crowns within the same day. They can also offer composite dental fillings for patients with cavities. These fillings are designed to last long because they are really durable plus they offer the bonus of being aesthetically pleasing.

Dr. Youngquist has been practicing dentistry for over 10 years. He has practiced pediatric dentistry, dental implants, and cosmetic dentistry, which is why he is comfortable in treating patients of all ages whatever dental problem they may have.

People who require the services of a family dentist and those who would like to know more about the family dental services provided at Palisades Dental may want to check out their website, or contact them on the phone, or through email. This family dentistry office is open from Monday to Wednesday, from 8:00 am to 5:00 pm, and on Thursdays, from 8:00 am to 3:00 pm. For their exact location, people may want to check out their Google Maps page at https://g.page/PalisadesDentalUtah.
