Furnace Repair Calgary Announces New Partnership

December 10, 2020

December 10, 2020 -
Calgary, Alberta-based Furnace Repair Calgary is pleased to announce their new partnership with Knight Plumbing, Heating & Air Conditioning. Established in 2011, Furnace Repair Calgary has since been offering furnace services to residential property owners in Calgary and the surrounding areas ever since.

Matthew Hannigan, a representative for Furnace Repair Calgary, says, ?At Furnace Repair Calgary, we have always been about providing a comprehensive, high-quality service to all of our customers. We are very excited about our partnership with Knight Plumbing, Heating & Air Conditioning, one of the best HVAC companies in Calgary, because this means that we can provide more for our customers, both residential and commercial. With the joined forces of Furnace Repair Calgary and Knight Plumbing, Heating & Air Conditioning, what you?ll get is an unmatched level of quality and service.?

With over 40 years of trust in the community, Knight Plumbing, Heating & Air Conditioning boasts an award-winning team of experienced furnace and air conditioning experts, plumbers and electricians who are able to deftly take care of all sorts of home?s heating, cooling and plumbing needs. The company, which was originally named Assured, has been owned-and-operated by the Wandler family since 1970. It has been a member of the Mechanical Contractors Association of Alberta for over 30 years, and accredited by the Better Business Bureau since 1991.

Hannigan is proud to state that Knight Plumbing, Heating, & Air Conditioning?s dedicated service has earned them many awards. ?The team at Knight are competent and very committed to what they do. They have earned the trust of the community and been recognized by several independent organizations for their efforts. They are a HomeStars Best of 2016, 2017 and 2018 winner. They have also won the Consumers Choice and Top Choice awards for 2019. In 2012, Knight won the Better Business Bureau?s Business Ethics Award for Southern Alberta and The East Kootenays of British Columbia. Joining forces with the Knight team is truly an honor, and we are excited to see where we can take this partnership.?

Hannigan?s praise for the HVAC Contractor is not undeserved, as the company has a solid rating of 4.7 out of 5 Stars from nearly 1,200 reviews. Colleen C says in their recent 5-Star review, ?I appreciated that Knight

was able to come in the morning as my furnace stopped working overnight, Derek was quick to assess the issue and presented different options. I have had trouble with the furnace since purchasing the new house, so it was useful to have a good discussion on repair versus buy a new one. I didn?t feel pressured either way. I did not check off value and quality only because I decided on a new furnace which has not been installed yet.?

In another review, Cathie Henderson says, ?Josh arrived promptly, assessed the issue and thoroughly explained all of the options to me. He then completed the repair work very quickly. Josh is a very professional and friendly person, and I will request him again for service. Knight Plumbing has a new loyal customer.?

Hannigan says, ?The team at Furnace Repair Calgary have always taken our customers? satisfaction to be our number one priority. The team at Knight Plumbing, Heating, & Air Conditioning has that same dedication ? and this bodes very well for our partnership. Residents of Calgary who are in need of any kind of furnace or HVAC services can trust that you will get not just high quality service, but also service that prioritizes your needs and treats you not just as a paying customer, but as family.?

Whereas Knight Plumbing, Heating, & Air Conditioning provides an array of HVAC services, Furnace Repair Calgary has specialized in providing furnace repairs and diagnostics. The company provides a 24/7 service that will be especially useful in the winter months when having a functional furnace is critical.

Those who want to learn more about the Calgary furnace company and the variety of services they offer are welcome to visit the company's website to explore further. They encourage interested parties to get in touch with Matthew Hannigan directly via email or phone. The company can also be reached through the contact form on their website. Additionally, Furnace Repair Calgary maintains a presence on Facebook where they frequently post updates, share media and communicate with their customers.
