April 4, 2014 // Press Advantage // Sacramento, CA -- Dori Friend, along with Brad and Matt Callen have just released their highly anticipated, official, Amazing Selling Machine Review detailing exactly what the system is and does.

The Amazing Selling Machine system, by Matt Clark and Jason Katzenback, was released about 1 year ago and entirely sold out within only a few days.

ASM then went off the market for nearly 2 years, all the while their active members were secretly making 5-6 figures selling physical products on Amazon, using only the strategies taught in the Amazing Selling Machine.

While creating the official Amazing Selling Machine review, Brad Callen says, "I knew this program was legit when several of my college friends (from 10+ years ago) started posting on Facebook stating their new Amazon business was making them upwards of \$5-\$10,000 profit a month. And these are people that had no internet marketing or business background. It's very fun for me to see them put this program to good use."

Unfortunately, Matt Clark and Jason Katzenback aren't going to keep this product on the market forever. They're known for opening it up to the public for roughly 7 days and then pulling it from the market completely.

It's been said through the grapevine that this may be the last time they open the system up, and it may close permanently, shortly after it opens on April 17th.

Some of what is included in the Amazing Selling Machine system are the following:

1. An 8-Week Online Web Class with Over 70 Proven Lessons
2. 8 Weekly Group Coaching Calls
3. 7 Proprietary Software Tools for Growing this Business

4. Ticket to the 3-Day LIVE Hands-On Workshop Event (ONLY for ASM Members)
5. PRIVATE Access to the Super-Active ASM Member's Only Community
6. Access to the ASM Mentors, Experts Who Have Succeeded with this Business and Offer their Help to New ASM Members
