

Roofing High Point NC Review Mentions a Pleasant Experience from First Contact to Project Completion

December 11, 2020

December 11, 2020 - PRESSADVANTAGE -

A roofing company High Point NC, Grace Roofing and Construction, was so pleased with a recent 5-star review that they wanted to share it. This was important to them because this particular review reflected how hard the personnel at the company work to satisfy every customer with all aspects of their roofing service. The recent review was left on the company's Google Maps Business Listing where they maintain a perfect 5 out of 5-star average rating.

In the previously mentioned review, Anthony Tervort wrote, "The whole experience was great. No pressure sale, presented with a bunch of options and quality products. The work crew was professional and never left the place a mess after each day of work. They were thorough and efficient." Not only does Grace Roofing and Construction do exceptional work from start to finish, but they also place a tremendous emphasis on customer service. Evidence of that comes in this review that can be found on the same Google Maps Listing as the previous review. Patricia Foster stated, "Could not have been happier with the level of service they provided. They were very knowledgeable and informative about all of our roofing needs. We will definitely be contacting them again and recommending them to others who need a roofing company."

A spokesperson for the company says, "We at Grace Roofing and Construction form a team that works hard for more than just a paycheck. Everyone at our company also takes much pride in what we do. It's why we are so appreciative when a customer takes time out of their busy day to write a review letting us know we did a great job. For everyone here, it's very satisfying when we find out that our hard work is paying off. Our business is growing fast because the word is spreading about the quality of our roofing services and the thoughtful way that we interact with our customers. We also want to assure our future customers that we will never get so big that we lose the personal touch and attention to detail that we have become known for."

According to the company spokesperson for this roofing High Point NC contractor, another way that they are going the extra mile for their customers is with the number of financing options they are now offering. There is

a whole website section dedicated to this topic that can be easily accessed from the dropdown menu at the top of their website's homepage. They are doing this because they realize that not everyone can simply write a check to get badly needed roofing work done such as a whole roof replacement. He says that by them offering so many financing options, they are trying to eliminate some of the stress and worry for their customers that often accompanies the initial phase of bigger roof repair projects. Their many company financing options were even the main topic of a press release that was recently written on Grace Roofing and Construction.

The company spokesperson also reminded that now is a great time for their customers to get a winter roof inspection. He stated that winter is the roughest time for roofs in the Greensboro and High Point, North Carolina areas and these inspections will make sure a customer's roof is ready for what's to come over the next few months. Grace Roofing and Construction does not charge for this service and oftentimes their experienced techs can spot and correct small roofing problems before they become bigger and more expensive repairs as a result of harsh winter weather. This company offers many more roof repair services than just whole roof replacements. Among those are leak detection and repair services, flat roof repairs, and metal roof repairs. He mentioned that another service of theirs that's fast becoming popular is their seamless gutter and gutter-guard installation work. They also perform their roofing services for both homeowners and those that own or manage commercial properties.

The company spokesperson added that for those that are interested in getting more information on the services this roof repair High Point NC company offers, they can be reached by phone, email, or by filling out the "free estimate" form that's found on the bottom of their website's homepage.
