Grace Roofing And Construction LLC Offering Roofing Winston Salem NC Receives Glowing 5 Star Review

December 08, 2020

December 08, 2020 -
Grace Roofing And Construction, a roofing company in Winston-Salem, NC, has received a glowing 5-star review for its services. The company offers services such as commercial roofing, roof replacement, roof repairs, and metal roofing. The company also urges customers to schedule a roof inspection before winter to preemptively spot and fix any problems that might occur during the winter months.

The review by Jenkins Carline says, ?Very happy I called this company! They responded extremely fast, friendly customer service. Thank you guys for fixing my roof.? The review can be found at https://goo.gl/maps/7WMdaSWsKxxgK2as9.

Another 5-star review by Joel Thomson says, ?We recently had our roof replaced and choose Grace Roofing after talking with a few of our neighbors who had their roofs done. Our house has gardens around most of the house and my wife puts a lot of work into these and the guys used extreme care not to damage anything. The clean-up was professional and the work was done on schedule. Thank you for your professionalism and quality of work.?

According to another review by Beatriz Lacroix, ?They were punctual and efficient and very courteous. They paid close attention to potential damage (flower pots, bird feeders, etc) and moved them out of "harm's way" before covering my gardens with tarps to protect them from debris. It also made it easier for their cleanup, which was very well done. They cleared the gutters of debris, ran a magnet over my lawn as well as my driveway to get any stray nails. All around very happy. They were a fantastic crew.?

The company says that maintaining the integrity of the roof is vital. It prolongs the lifespan of the roof, protects the home from water damage, and minimizes the health risks associated with mold and dampness. It also helps avoid the costly expense of replacing the roof years too early. Storm damage can be pretty common in the Winston-Salem area. After a storm, one might notice roof leaks, missing shingle tiles,

warping, or lifting or your asphalt shingles. The company claims to be well equipped to be the best 24/7 first responder for storm-damaged roofing. They can extract water, assess the damage to the roofing and the home, and create a comprehensive, tailored storm damage solution. They claim to be the best option for emergency repairs of roofing Winston-Salem NC.

The company says that repairing or replacing the roofing in the winter is very difficult. Firstly, snow in winter creates slippery conditions which can be hazardous to the crew. Secondly, the tools used in the installation of roofs such as nail guns may stop functioning in the winter as they are pneumatic in nature. The shingles may also become more brittle in the cold weather leading to difficulties in shaping them. There are also problems with the sealant at lower temperatures. To avoid the slew of problems that roof work brings in the winter, it is recommended to do a maintenance check before the winter months when the conditions are more suited for it.

The team at Grace Roofing And Construction LLC has kept its local community covered for over a decade. The company is locally owned and operated. They specialize in all types of roof repairs for residential and commercial roofing systems. Their comprehensive roof repair process starts with a free roof repair estimate. They are a CertainTeed certified company which entails that they use premium materials, and install them to manufacturers? standards. They also have an industry-leading 10-year workmanship warranty. They also have an A+ rating from the Better Business Bureau.

They claim to price competitively and communicate openly. The company says they quote a fair price on every project. They also say that customers can expect clear, transparent, professional communication that keeps them in the loop. According to the company, its proven track record of high performance, exceptional service, and fair pricing enable it to give its customers peace of mind through the roof installation process. They maintain that they are the best when it comes to roof repair Winston-Salem NC.

The company?s Winston-Salem location can be reached at its phone number 336-481-7218.
