CM Counsel's Exton location has been in operation since 1998 and has a long history of providing quality and compassionate care and treatment. The location's dedicated team of providers offers services such as individual psychotherapy, family therapy, and marriage and couples counseling. In addition, they also offer psychiatric evaluation and medication management, not only for adults but for children and adolescents as well. The clinic's licensed professional counselors, licensed clinical social workers, clinical psychologists, psychiatrists, and nurse practitioners are experts in treating a multitude of issues and will work with the client to identify the most effective coping strategies and methodologies to resolve obstacles to their emotional well-being.

The practice offers multiple therapeutic practices such as cognitive behavioral therapy, mindfulness-based therapy, behavioral therapy, interpersonal therapy, EMDR, psychodynamic therapy, brief therapy, and eclectic therapy. Additional therapies offered are stress management, relaxation training, and guided imagery, parenting skills training, family-centered therapy, gestalt therapy, client-centered therapy, reality-based therapy, functional family therapy, systems-focused therapy, motivational interviewing, strengths-based therapy, dance & movement therapy, EFT (tapping therapy), and life coaching.

The practice describes its individual therapy (also called counseling or psychotherapy) as a process in which the client works one-on-one with a psychologist, licensed clinical social worker, or licensed professional counselor to address any issues, concerns, or problems that detract from their quality of life. In therapy, the client will develop a confidential collaborative relationship with their psychotherapist to meet their goals for positive change. All of the practitioners at CM Counsel offer individual therapy for adults 18+.

CM Counsel provides family therapy, during which the focus of treatment is the family as a whole. The family is a system that impacts the experience and functioning of all the members. Family therapy helps members of the family resolve conflicts and improve communication. CM Counsel therapists will provide a supportive approach to guide families through stressful times.

The practice also provides marriage & couples therapy. The focus of marriage or couples therapy is the relationship between two people. This type of therapy helps couples of all kinds rectify differences, recognize and resolve conflicts and improve functioning in the relationship. With the help of one of the practice's therapists, clients can make thoughtful decisions about rebuilding or improving relationships.
