

Traverse City Roofing Contractor Earns Another 5 Star Review From Happy Customer

December 15, 2020

December 15, 2020 -
Traverse City Roofing, roofing and reshingling contractor based in Traverse City, MI, is proud to announce that they have received yet another five-star review. This recent glowing review came from Judy Morgan who happened to be staying at a rental property with her family at that time when the roofing contractor was hired to work on the roof of that property. She was very pleased when the roofing specialists made sure that they were not in the property when doing the work and that they made sure there would be as little mess as possible to ensure the safety of the kids.

In her review, Judy said, ?Thanks so much Terry at Traverse City Roofing! If you are looking for a roofing co you need to get ahold of Traverse City Roofing. They recently finished the roof on an Airbnb we stayed at.?

In a previous press release by Traverse City Roofing, they had revealed that such highly positive reviews have caused an increase in the number of people making inquiries about their services. James Thomas, a spokesperson for the company, had even noted that some of the inquiries came from out of state. Those who are interested in knowing more about this can check on the previous press release here.

James Thomas says, ?As a Traverse City-based roofing contracting firm, TraverseCityRoofing.net offers the finest service available to multiunit residential, commercial, industrial, governmental, and institutional clients throughout Northern Michigan, including Grand Traverse County, Leelanau County and beyond. Call us for competitive pricing, honest recommendations, and our satisfaction guarantee. All it takes is setting an appointment to speak with one of our helpful, knowledgeable staff, so call TraverseCityRoofing.net today to get started.?

For both residential and commercial buildings, they offer: new roof installation, roof repair, roof maintenance, emergency roof repair, interior roof repair, rooftop snow removal, and deck installation. They tear off the old roof from a home and then replace it with a brand new installation, ensuring that it is installed properly. They can assure this because their crew members have an average of 10 years of experience in the roofing industry.

They can provide roof repair, which is the most cost-effective solution for roofs with minor problems. They also offer 24-hour emergency roof leak repair services to ensure that those who have severe roof leaks can have their problem resolved as soon as possible to prevent further damage to the home.

They can also offer roof maintenance services to homeowners who prefer to have peace of mind in the knowledge that their roofs are inspected at regular intervals to prevent minor roof issues from growing into more serious problems, and to prolong the life of the roof.

And this winter season, homeowners are likely to need the services of Traverse City Roofing, which also provides rooftop snow removal services. Too much snow on the roof can lead to a number of problems, such as ice damming, roof leaks, and roof collapse. This could lead to expensive repairs and may even endanger the people living in the home. The solution is to have the roof inspected and have the excess snow on the rooftop removed.

For commercial roofing, they often install or repair commercial metal roofs, which are often preferred by businesses because of their durability and versatility. Metal roofs are also lightweight and will require very little maintenance, if any. Pre-finished steel is the most common material for commercial metal roofing because it is weather tight and has a warranty of 30 years. They can also provide various kinds of flat roofing choices, such as the PVC, EPDM, and TPO roofs. Most commercial roofing are low-slope while residential roofing are usually steep-slope.

Those who are interested in the roofing services may want to get free estimates by visiting the TraverseCityRoofing.net website, or contact them on the phone or through email. They are open from 7:00

am to 6:00 pm, from Monday to Friday, and from 9:00 am to 3:00 pm on Saturdays.
