

Traverse City Roofing Receives Five Star Roofing Services Review

December 17, 2020

December 17, 2020 - PRESSADVANTAGE -

TraverseCityRoofing.net has announced with pride that their roofing services has earned another five-star review. The customer, Kendra Lester, had observed the work done by the roofing professionals for the home of her cousins where she had been staying. She states that she is recommending their roofing services to those who are looking for a roofing services provider. The company provides both residential and commercial roofing services that have been observed by customers to be of high quality and affordable.

In her 5 star review on Google, Kendra said, "Wow, I can't say enough nice stuff about TC Roofing. If you're looking for a provider of roofing services, you have to contact Traverse City Roofing. They just finished the roof for my cousins that we stayed with." Traverse City Roofing has currently an overall rating of 5.0 stars on Google.

Traverse City Roofing is capable of serving all kinds of roofing needs, from a simple tear-off and re-shingle project to a brand new custom metal roof. They have professional crew members who have the skills and the experience to handle any type of roofing needs. There are a number of possible reasons why Traverse City residents may choose them over other roofing service providers. These include free no-obligation estimates, highly experienced roofing technicians, professional and courteous staff, upfront pricing with no hidden fees, and the fact that it is locally owned and operated, which means that they are familiar with the area and will not likely go away.

For residential customers, Traverse City Roofing can maintain, repair, or install various types of roofs. For those with roofs having indications of damage or disrepair, they recommend that homeowners get the services of the appropriate roofing company and make sure that they can be trusted in the installation of a new roof. Such a roofing company must have lots of experience in the roofing industry, has a wide range of choices for roofs, and affordable prices. Homeowners will likely find such qualities in Traverse City Roofing.

They want to point out that tearing off an old roof and replacing it with a new one will only take a day or even less to complete if it is a regular-sized home. It is only if the house is quite large with many peaks and valleys on the roof that roof replacement will require a bit more time. They can provide either asphalt shingle installation or metal roof installation.

Asphalt shingle roofs are easy to work on because it is possible to place new shingles on top of the current roof. It is not always required to rip off the old roof and replace it with a new one. Homeowners may want consider this if they have a limited budget.

Metal roofs are a good alternative for homeowners who want a fire-resistant, energy-efficient, and stylish roof. Metal roofs are also very durable and may last for over 50 years. And out of the metal roof options, copper roofs have been gaining in popularity because brand new copper has an attractive blue-green patina that may last for some time. Copper roofs are also durable and strong, lasting for 50 years or more with just some repairs and maintenance. Copper is also highly resistant to hail, fire, and mildew.

For commercial customers, flat roofs are often found in various buildings. For flat roofs, metal is one of the most common materials. Ideally, flat metal roofs may have a life span of almost 35 years as long they are given proper maintenance. There are other potential materials for flat roofs, such as ethylene propylene diene monomer (EPDM) or rubber. This is a durable material for roofs that has been engineered to resist damage caused by sunlight.

Homeowners and other property owners who are looking for roofing services in Traverse City and surrounding areas may want to check out the TraverseCityRoofing.net website, or contact them through the phone or via email. They are open from 7:00 am to 6:00 pm, from Monday to Friday, and from 9:00 am to 3:00 pm on Saturdays. Click here to see more 5 star reviews.
