Online Booking Making Dumpster Rentals in Aurora IL Easier than Ever Before

December 22, 2020

December 22, 2020 -

Resource Dumpster is an Aurora, Illinois trash removal services provider that has always taken proactive steps to help their business stay as customer-friendly as possible. Never has that been more apparent than with the recent addition of convenient online bookings for their dumpster rentals. That means now their customers can call them, text them, or use their online booking system to schedule a dumpster drop-off. This will help greatly simplify things for contractors, businesses, and homeowners who have a large amount of trash or debris to remove from a property.

The company spokesperson, Richard McDonald, says, ?We are a company that has always strived to be as progressive as possible. Part of that is making things simple for our customers when it comes to selecting the types of dumpster that they need and setting up a delivery date and time. That has just gotten much easier due to our new online booking system. Once someone goes to our website, with just a few simple clicks and the filling in of some basic information, any customer of ours can conveniently get a dumpster delivery scheduled. Most of our customers who book their dumpster drop-offs say this whole process usually takes less than 5 minutes to complete.?

McDonald stated that those who want to take advantage of their online dumpster rental booking service will find it simple to do once they go to their website. It all starts with selecting the dumpster size that they want on their homepage and then clicking on the ?online booking? tab that?s found beneath it. This will take them to another website page that describes the dumpster rental in more detail and will also allow a customer to add it to their cart. Then all a customer has to do is select a delivery date and then go to their cart to finalize the online dumpster rental booking.

According to McDonald, not only are they making booking their dumpster rentals more convenient but they now also have three different size dumpsters for their customers to choose from. They do this because they realize that not everyone has the same amount of trash to get rid of or the same amount of space to place a dumpster. Their smallest size dumpster is 3.5? x 7.5? x 14? and holds up to 10-yards of material. He stated that this is perfect for such tasks as a homeowner removing yard debris or home remodeling cleanup. They also have a mid-size dumpster that holds up to 15-yards of trash or debris and measures 4.5' x 7.5' x 14'. McDonald says this works great for such cleanup projects as attic junk removal, estate cleanouts, and whole house carpet removal. He says their largest dumpster is a 20-yard model that measures 6' x 7.5' x 14'. These are used for such junk removal tasks as hauling away roofing job trash, demolition debris, or for customers that know they will need several dumpster loads to complete a cleanup project. The company spokesperson also added that because they use roll-off/roll-on style dumpsters, their experienced drivers are often able to place them exactly where their customers want them to go. This helps by reducing the distance that those hauling the trash need to go to access the dumpster. He also stated they can do same-day delivery on most occasions and they have an impeccable record when it comes to on-tine dumpster delivery. McDonald also says that getting one of their dumpsters picked up is even easier than booking one because all it takes is a quick text message to get the job ordered.

McDonald added that those who are interested in seeing the sizes of the dumpsters that they have available or want to conveniently book a dumpster rental online, they can do so by visiting the company website at https://www.resourcedumpster.com/dumpster-rental-aurora-il/. He also mentioned that they provide dumpster rental services to a wide variety of Aurora, Illinois area communities such as Rockford, Huntley, Loves Park, Poplar Grove, Burlington, and South Beloit. The company spokesperson also says that those who are not sure if they are in their service area are welcome to call them to find out because chances are they can accommodate them.
