

Free Search Engine Optimization Report Offered To Improve Google Ranking

September 17, 2015

September 17, 2015 - PRESSADVANTAGE -

Overflow Marketing Solutions, based in Ann Arbor, MI, is currently offering a free search engine optimization (SEO) report, which shows potential clients how they can improve their Google ranking in just a few easy steps. The SEO company can assist in these steps and full details about the service are available at <http://www.iwantoverflow.com>.

"We can help our clients improve their SEO by as much as 53% in less than 60 seconds," says Martin Smith from Overflow Marketing Solutions. "While this may sound too good to be true, it actually isn't. In fact, we are so confident that we can do this that we offer a completely free SEO report that can instantly be downloaded from our website. This will clearly show the things that we can achieve."

The downloadable report firstly shows clients what is their current level of optimization. It then goes on to describe where their competition outranks them and what the effects of this are. Finally, the report describes how ranking can be improved instantly and what this can mean in terms of bottom line and profitability.

For Overflow Marketing Solutions, the goal is to help businesses provide more leads. More leads means that

revenue is increased as well, and they feel that they offer an excellent return on investment as a result. Finally, they want to ensure their clients can also achieve greater profits. Essentially, the sole focus of the company is to help their clients grow their business.

The services they have been providing have been overwhelmingly positively reviewed. "Our experience was nothing but positive," says Karla Villatoro, who is District Marketing Director at Westfield USA. "I really felt like you were a part of my team and were truly invested in our success. You were constantly looking to improve on what we were doing and welcomed my feedback. You've been a great partner and a part of our success over the last 4 years."

Overflow Marketing Solutions offers strong SEO services. They also have a Platinum Growth Program [PGP], which uses an immersive strategy. This, effectively, is beyond simple SEO and has substantial effects.
