Express STD Testing Now Offering A 10 Panel Test

December 18, 2020

December 18, 2020 -
A comprehensive STD test aimed at saving time and money is now available.

There are many different STDs that affect people. Getting tested is the best way a person can know if they are infected. Express STD Testing is an online STD website that provides a safe and private way for people to know their status. Recently, the STD testing site has introduced a 10 panel testing package that aims at including 10 most common STDs in the testing process. This is a comprehensive STD test that save time and money.

According to the company, ?There are many STDs that do not show clear signs and symptoms. This means that there are many people who get infected and are not aware of their status. According to medical practitioners, having one STD puts you at risk of other STDs infection. Our comprehensive STD test covers 10 common STDs that include Chlamydia, HIV type 1 and type 2, herpes type 1 and type 2, hepatitis A, hepatitis B, hepatitis C, syphilis, and gonorrhea. We have a modern technology HIV test that checks for RNA genetic material in the blood. This means that we can detect HIV within 9 days after the infection.?

The comprehensive test includes chlamydia testing, gonorrhea testing, hepatitis A testing, hepatitis B testing, hepatitis C testing, herpes 1 testing, herpes 2 testing, HIV 1 and 2 antibody testing, and syphilis testing. This

panel is aimed at people who would like a comprehensive test that covers most of the common sexually transmitted infections. The results are accurate and will be out within a short period. The good news is that they are anonymous and therefore, no one else will know if the person testing is positive or negative.
