

Reason 2 Smile Dental Offers Treatment For Toothache

January 04, 2021

January 04, 2021 - PRESSADVANTAGE -

UT-based Reason 2 Smile Dental would like to inform Salt Lake City residents about their dental treatments for toothache. Toothache is one of the most common complaints people have when it comes to dental health, and Reason 2 Smile Dental provides a number of treatments that can offer relief from such pain. The dental office primarily serves residents in Salt Lake City, but they also offer dental care to Mill Creek, Murray, Holladay, Zions Park, Woodside Heights, Winter Meadows, Arcadian Park and Smithfield. Toothache can be caused by any of a wide range of issues. It can be a sign of tooth decay, a dental abscess, a damaged tooth, a damaged filling, an infection and so on. The specific treatment required depends on the nature of the damage to the tooth. A damaged tooth, for example, can be fixed using fillings or replaced with dental implants. Reason 2 Smile's team of highly qualified dentists has all the tools and knowledge needed to repair a damaged tooth.

Emergency dental care is one area in which the Salt Lake City dental office specializes. This usually involves conditions such as chipped or shattered teeth, toothache and a number of other oral issues. Usually, it is best to consult a professional immediately when facing these types of problems as they can easily develop into something very serious.

The dental office says, "Losing a tooth or damaging one or more of your teeth beyond repair doesn't have to be the end of your beautiful smile – far from it. At Reason 2 Smile Dental, we use state of the art dentistry techniques to transform your painful injury into a beautiful, rejuvenated smile."

The Salt Lake City dentist office specializes in a wide range of regenerative dentistry procedures and techniques. Crowns, veneers and dental implants are all available at Reason 2 Smile, for instance, and can help fix a broken or incomplete smile. At Reason 2 Smile Dental, the team believes that a healthy smile can inspire confidence in oneself. They consider it their job is to help patients achieve the kind of smile that makes them happy and confident.

The dental office is run by Dr. Andrew M. Vernon, a native of Salt Lake and father of five. "I'm a native of Salt Lake," he says. "Attended Brigham Young University and received my dental degree from the Arizona School of Dentistry and Oral Health. I'm such a tooth nut that I even graduated top of my class. I also completed a postgraduate hospital residency at the University of Utah Medical Center and have practiced here in the Salt Lake area ever since. I love keeping up on the latest dental jokes (email me if you've heard a good one) as well as the latest advances in treatments and technologies, recently completing several advanced courses in cosmetic dentistry, implants and oral surgery."

The dental office is well known and trusted among Salt Lake City residents. Dr. Vernon and his team's personalized approach ensures that every patient feels well taken care of, and many of them have taken to the internet to share their experiences.

"One of the hardest parts of moving to a new state, is finding a dentist and a doctor," says a Google review from Dave Torres. "I don't have enough trust to pick a provider off an insurance list, so I mostly rely on word of mouth for referrals. I had consultations at two dental offices before scheduling with Dr. Vernon. By the end of my examination with Dr. Vernon, I knew I had found my family's new dentist. Mindy, the hygienist, was so gentle, friendly and gave me many great insights about Utah. I'm grateful that I didn't settle before and waited till I found the best!"

Similarly, Byron Major shares, "Dr. Vernon is an outstanding dentist! He takes the time to listen to your concerns, informs you of what he recommends before he does anything. What's more, he'll follow up with you later during the day to ensure everything is okay and to see if you have any concerns. I'm so grateful for his professionalism and service."
